Graduate Catalog Policy Statement

Henderson State University is committed to the policy of providing educational opportunities of all qualified students regardless of their economic or social status and will not discriminate on the basis of race, color, sex, creed, sexual orientation, disability, veteran's status, age, marital or parental status, or national origin. The Office of General Counsel, 308 Womack Hall, has been designated to coordinate efforts to comply with the provision of Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act, and the Civil Rights Act of 1991.

This catalog presents current policies and procedures concerning Henderson State University and the Graduate School, including admission requirements, registration fees, curricula offered, degrees granted, and courses available. However, because all policies and procedures are essentially subject to a continuing evaluation process, the University reserves the right to make appropriate revisions at any time and without prior notice. Consequently, the catalog does not constitute a contractual agreement between the university and the student.

The courses listed in this catalog have been authorized in accordance with policies approved by the academic colleges and the Graduate Council. Schedules of classes for each semester must be consulted for courses to be offered during a given semester, since the frequency of offering each course is determined by the department as program needs dictate, with no assurance that a given course will be offered every year. The outline of courses and prerequisites, when stated, are meant to serve as a guide to degree program planning and are subject to specific determination and consultation with program advisors.

Information concerning graduate academic programs may be obtained by writing the Graduate School at HSU Box 7802, 1100 Henderson Street, Arkadelphia, AR 71999-0001, or visiting the HSU web-site at <http://www.hsu.edu> or emailing grad@hsu.edu or calling (870) 230-5126.

Historical Sketch

Henderson State University has a unique history. The only Arkansas university which has been controlled by both church and state; it is the only public institution named for an individual. Of the nine Arkansas public universities, HSU is one of two originally established as four year, degree conferring institutions and is the second oldest university under state control. The university has operated for a century under six names: Arkadelphia Methodist College (1890 - 1904), Henderson College (1904 - 1911), Henderson Brown College (1911 - 1929), Henderson State Teachers College (1929 - 1967), Henderson State College (1967 - 1975) and Henderson State University (since 1975).

Henderson State University had its beginnings on November 6, 1889, when Arkadelphia civic leaders and members of the Methodist Episcopal Church, South, held a town meeting at the Church to discuss establishment of a Methodist college for Arkadelphia and south Arkansas. Leaders of the movement, however, became convinced that the interest of the community could best be served by securing Hendrix College, an established Methodist institution then subject to relocation. Arkadelphia's failure to secure Hendrix College resulted in implementation of the original plan.

The institution was founded on March 24, 1890, and was incorporated as Arkadelphia Methodist College. It was chartered as a four year, co-educational, baccalaureate liberal arts college. The College opened on September 3, 1890, with 110 students and 10 faculty members. The name was changed to Henderson College in 1904 to honor Charles Christopher Henderson, a Trustee and prominent local businessman. In 1911, the name was amended to Henderson Brown College to honor Walter William Brown, who was also a Trustee.

From its founding in 1890 until 1925, the College also operated an academy which provided instruction for students desiring high school courses and for those not prepared to enter the collegiate curriculum. Henderson was a sister institution of Hendrix College. In 1929, the educational commission of the Arkansas Methodist Conference proposed that the two colleges be merged in Little Rock. However, through the efforts of Arkadelphia citizens and religious and political leaders of south Arkansas, the institution, then known as Henderson Brown College, was offered to the State of Arkansas. The Arkansas General Assembly enacted legislation (Act 46) to "establish a standard Teachers College in Arkadelphia," and Henderson became a daughter of the state.

At present, degree programs are offered through the Matt Locke Ellis College of Arts and Sciences, the School of Business, the Teachers College, and the Graduate School. In addition to its own degree program in nursing, Henderson also operates the only aviation degree program in Arkansas. In 1951, Henderson became a graduate center for the University of Arkansas and, in 1955, instituted its own graduate program. The university now confers six graduate degrees: MAT, MBA, MLA, MS, MSE, and Ed.S.

Presidents of the University

George Childs Jones (1890-97) (1899-1904)

Cadesman Pope (1897-1899)

John Hartwell Hinemon (1904-1911)

George Henry Crowell (1911-1915)

James Mims Workman (1915-1926)

Clifford Lee Hornaday (1926-1928)

James Warthen Workman (1928-1929)

Joseph Pitts Womack (1929-1939)

Joseph A. Day (1939-1941)

Matt Locke Ellis (1941-1945)

Dean D. McBrien (1945-1963)

M. H. Russell (1963-1969)

Martin B. Garrison (1970-1986)

Charles DeWitt Dunn (1986-2008)

Charles L. Welch (2008-2011)

Bobby G. Jones, Interim (2011-2012)

Glendell Jones Jr (2012-present)

Mission

The mission of the Henderson State University Graduate School is to provide advanced and specialized education beyond the baccalaureate program. Henderson State University offers graduate study that is intended to

- Strengthen the academic and professional competence of the student.
- Develop the capacity for independent study.
- Acquaint the student with major literature, theories, concepts, and practices in his/her field.
- Broaden the student's knowledge of the subject matter content of his/her discipline.
- Assure seminar methods, requiring student participation.
- Significantly advance the student's ability to write and communicate verbally.

The purpose of graduate study presupposes a broad background of knowledge with an adequate preparation at the baccalaureate level in a major field of study. The graduate student is expected to:

- Assume responsibility and to exercise individual initiative;
- Utilize extensive and intensive research and reading;
- Demonstrate qualities of leadership;
- Engage in free thought and discourse.

Furthermore, in keeping with HSU's mission-at-large, the Graduate School endeavors to provide an education which will nurture in each student the capability to

- Think logically, creatively, and critically;
- Appreciate the complexity and diversity of world cultures;
- Participate as a concerned, intelligent citizen;
- Mature intellectually and emotionally; and
- Discern appropriate uses of technology relevant to the field of study.

Governance

Authorization

A fifth year program of advanced professional education was approved by the Henderson State University Board of Trustees in August of 1954. The university now offers the following graduate degrees: Master of Business Administration, Master of Liberal Arts, Master of Science in Clinical Mental Health Counseling, Master of Science in Education, Master of Arts in Teaching, Master of Science in Sports Administration, Master of Science in Developmental Therapy and Educational Specialist.

Graduate Council

The Graduate Council recommends policies for the operation and improvement of the Graduate School. The Graduate Council acts as the higher body of the graduate faculty for final recommendations and proposals to the Provost/Vice President for Academic Affairs and, through that office, to the President and the Board of Trustees. The Graduate Council is responsible for such matters as approving new graduate courses; approving the graduate faculty; recommending additions, deletions, and changes in the various graduate programs and degree requirements; and recommending the assignment and awarding of graduate assistantships. Also, the Council approves applications for candidacy and for graduation and serves as an appeal board for special student requests.

Support Services

Students with Disabilities

The university is subject to and endorses both the Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act of 1973. The Compliance Officer for the ADA and Section 504 is the General Counsel to the President, Room 308, Womack Hall, HSU Box 7744, 1100 Henderson Street, Arkadelphia, AR 71999-0001, phone (870) 230-5089.

The Disability Resource Center is the designated office that obtains and files disability-related documents, certifies eligibility for services, determines appropriate academic accommodations, and develops plans for the provision of such accommodations. The mission of The Center is to create an accessible university community where qualified students with disabilities can achieve their academic potential within the regular, liberal arts academically competitive university curriculum. The Center works with students, faculty and staff to promote students' independence, to help identify the tools by which they can accomplish their educational and career goals, and to ensure recognition of their abilities, not disabilities. The Center is committed to keeping disability-related information confidential in accordance with state and federal laws. The Center assists students with the following accommodations:

- Course selection
- Priority scheduling
- Classroom and building accessibility
- Adapted testing
- Alternate print formats - audio, large print, Braille
- Note takers
- Interpreters
- Auxiliary aids and services

If you have need for support because of a disability, contact The Center. The Disability Resource Center is located in room 112, Foster Hall, HSU Box 7594, Arkadelphia, AR 71999-0001, phone (870) 230-5475. Early contact with The Center will provide for a smoother transition in obtaining needed services.

Some residence halls have been modified to accommodate residential living for non-ambulatory students. Modified facilities are adapted to meet individual needs and advance notice is often needed to make timely accommodations. If an attendant is needed, planning must be made with the Office of Residence Life at least sixty (60) days before the anticipated enrollment date. Preferential roommate assignments may be made if both persons who notify the Office of Residence Life at the time housing forms are submitted.

Parking for individuals with disabilities is available on campus. For further information or special parking needs, contact the University Police, Room 209, Womack Hall, HSU Box 7572, 1100 Henderson Street, Arkadelphia, AR 71999-0001 or phone (870) 230-5098.

Students with disabilities who have questions or need assistance should contact the Disability Resource Center, Foster Hall, Room 112 or the General Counsel to the President in Womack Hall. If any matter remains unresolved and a student wishes to make a formal complaint, the following procedures should be followed:

1. A complaint shall be made in writing or verbally to the General Counsel to the President, Room 308, Womack Hall, HSU Box 7744, 1100 Henderson Street, Arkadelphia, AR 71999-0001, and shall contain the name and address of the complainant and a brief description of the alleged violation.
2. Complaints should be filed within thirty (30) days after the complainant becomes aware of the alleged violation. An investigation by the General Counsel to the President shall follow the filing of a complaint.
3. A written determination as to the findings and the validity of the complaint, and a description of the resolution, if any, shall be issued to the complainant no later than ten (10) days after filing of the complaint.
4. The ADA Coordinator shall maintain the files and records relating to complaints filed.
5. The complainant may request reconsideration of the case in instances where he or she is dissatisfied with the investigation, findings or resolution of the General Counsel to the President. This request should be made to the Office of the President within five (5) days of receipt of the determination.
6. The right of a person to a prompt and equitable resolution of a complaint filed hereunder shall not be impaired by the person's pursuit of other remedies such as filing an ADA complaint with the responsible federal department or agency nor is the use of this resolution procedure a prerequisite to the pursuit of other available remedies.

Sexual Harassment Policy

Henderson State University is committed to the maintenance of a working and academic environment free from all forms of sexual harassment. Sexual harassment violates university policy as well as state, federal, and local laws. It is neither permitted nor condoned.

It is a violation of Henderson State University's policy against sexual harassment for any employee or student at Henderson State University to attempt in any way to retaliate against a person who makes a claim of sexual harassment.

Any individual found to have violated the university's policy against sexual harassment will be subject to appropriate disciplinary action including, but not limited to, reprimand, suspension, termination, or expulsion. Any disciplinary action taken will depend upon the severity of the offense.

Definition:

Sexual harassment is defined as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when:

- A. Submission to, or toleration of, such conduct on or off campus is made a term or condition of instruction, employment, or participation in other university activities.
- B. Submission to, or rejection of, such conduct by an individual is used as a basis for evaluation in making employment or academic decisions affecting the individual; or
- C. Such conduct has the purpose or effect of unreasonably interfering with an individual's academic or employment performance or creating an intimidating, hostile, or offensive university environment.

The procedures for complaints can be found in the Student Guide, Faculty Handbook of Staff Handbook.

Miscellaneous Federal Legislation Affecting Students

Equal Employment Opportunity

Title VII of the Civil Rights Act of 1964
Sex Discrimination
Race Discrimination
Religious Discrimination
National Origin Discrimination
Equal Pay Act of 1963
Disability Discrimination
Americans with Disabilities Act of 1990
Rehabilitation Act of 1973, Section 504
Age Discrimination in Employment Act of 1967
Civil Rights Act of 1991

Students and Program Nondiscrimination

Title VI of the Civil Rights Act of 1964
Title IX of the Education Amendments of 1972
(Sexual Harassment and Gender Equity)
Rehabilitation Act of 1973, Section 504
Americans with Disabilities Act of 1990
Age Discrimination Act of 1975

Privacy of Student Records

Family Educational Rights and Privacy Act of 1974

Consumerism

Student Right to Know Act of 1990
Education Amendments of 1976

Campus Crime Reporting

Campus Security Act of 1990

Drug Use by Employees and Students

Drug free Schools and Communities Act of 1989
Drug free Workplace Act of 1988

Questions concerning any of the above statutes should be directed to the General Counsel to the President, Room 308, Womack Hall, HSU Box 7744, 1100 Henderson Street, Arkadelphia, AR 71999 or phone (870) 230-5089.

Admissions to Graduate Study

General Provisions

A graduate of a regionally accredited college or university requiring substantially the same undergraduate program as Henderson State University may be admitted to graduate standing if the student's grades are well above the average required for the bachelor's degree. In practice, this means either a grade point average of 2.7 (out of a possible 4.0) or above for all work recorded covering the undergraduate program, or a 3.0 average or above on the last 60 hours of undergraduate credit. These admission requirements pertain to the MSE, MLA, MAT, and MS programs. Beyond the base-level grade point average, other specific admission criteria involving tests, essays, and/or interviews are outlined in later sections.

Admission to the MBA program is contingent upon the applicants having a bachelor's degree from an accredited institution as well as background and grade performance which indicate probable success at the graduate level. Applicants must satisfy the twenty one hours of prerequisite coursework in order to be admitted into the MBA program. In addition, performance on the Graduate Management Admissions Test (GMAT) is used in evaluating an applicant. The applicant's undergraduate grade point average (GPA) and GMAT score are combined to calculate a GPA/GMAT index based upon the following formula: 200 times the undergraduate GPA plus the GMAT score. To qualify for full admission, the applicant must achieve a minimum index of 1000. In addition to this minimum index, an applicant desiring full admission must have a minimum undergraduate GPA of 2.70 and a minimum GMAT score of 400. The applicant should refer to later sections of this catalog for complete details on admission requirements and a discussion of conditional admission.

Every prospective student must submit a completed application for admission to the Graduate School. An official transcript must be forwarded from each college and university attended since high school graduation to the Dean of the Graduate School. All credentials should be on file at least two weeks in advance of the registration date of the term which the applicant plans to attend. When credentials have been evaluated, the applicant will be notified of his/her eligibility for admission to graduate study. Each student accepted into the school will be assigned an advisor.

NOTE: A transcript can only be considered official when it has been sent electronically from the student's former institution(s) to the Graduate Office. Hand-delivered, faxed, or photo-copied transcripts are not acceptable.

A student seeking admission to a particular degree program must satisfy the general requirements of the Graduate School as well as any additional or more rigorous requirements set by the faculty of the graduate program to which the student seeks admission. Subsequent sections of this catalog give program descriptions and specific degree requirements.

After being accepted, a student may not change the field of specialization without the permission of the Dean of the Graduate School. Such permission will be given only if the student meets admission requirements for the program to which he or she wishes to change. An applicant who

is accepted, but fails to enroll within one year, must reapply and will then be required to meet any changes in requirements that may have been made since the original admission.

The record of a graduate student who has not completed his/her work within the required number of calendar years (6 years for most degrees; 8 years for counseling) will be removed from the files, unless the student has written the Dean of the Graduate School and requested an extension. The request should include specific circumstances and the student's advisor must approve the request. A student who interrupts a program of graduate study for a period of more than one year will be responsible for satisfying the program requirements current at the time the student resumes graduate study.

Admission to graduate study does not imply official admission to candidacy for the degree. A student wishing to obtain a second Master's degree must meet admission requirements for that degree as well as graduation requirements. A student must be re-admitted to Graduate School before beginning course work for a second degree. Courses cannot be counted for credit toward more than one degree or program. This includes courses taken at the undergraduate level which are dually listed at the graduate level. Appropriate substitutions will be made for required courses which have previously been completed.

A student who has already earned a master's degree at an accredited institution in the United States (checked and approved by the Graduate Dean) will not be subject to the current undergraduate G.P.A. requirement when applying to the HSU Graduate School. This does not exempt the students from other application criteria.

Admission on Condition

An applicant who graduated from an accredited college without a 2.70 GPA, but has a 2.50 GPA overall, may be admitted with evidence that the student is capable of satisfactory performance. The student must maintain a 3.00 GPA throughout his/her work toward an advanced degree. In such cases, failure of the student to meet this condition at any point in the graduate program is sufficient ground for dismissal or reclassification as a non-degree student.

In determining eligibility for conditional admission, the Dean of the Graduate School will require that MLA, MSE, MAT, or MS applicants present acceptable scores on the general aptitude section of the Graduate Record Examination (GRE) or on the Miller Analogies Test (MAT). Letters of recommendation or other pertinent data may also be required.

An applicant from an unaccredited college who has satisfactory grades and a satisfactory program of undergraduate work may be admitted with an entrance condition of twelve (12) semester hours. The student may remove this condition by earning a 3.00 grade point average on these twelve (12) hours. If he/she presents acceptable graduate credit from another accredited graduate school, the twelve (12) hour requirement may be reduced by the number of such credits.

Admission in Unclassified Status

An applicant wishing to be admitted to graduate school without pursuing a program leading to the Master's degree or certification may apply for unclassified status. Such an individual must meet minimum eligibility requirements which include a baccalaureate degree from an accredited institution and minimum grade point average and must be prepared to undertake graduate work in the subject area requested. Such preparation requires a minimum of twenty four (24) hours in the requested subject area. These hours must be approved by the graduate faculty of the department in which the applicant intends to pursue graduate work. Unclassified status does not necessarily make a student eligible for enrollment in all graduate courses.

A student whose previous record shows certain deficiencies, but who is nevertheless admitted to graduate school and placed in unclassified status, may later initiate a petition with the Graduate School to be given admission with full qualifications when such deficiencies have been removed, provided the student has at least a 3.0 grade point average in graduate courses completed. A maximum of fifteen (15) graduate hours taken while in unclassified status may be transferred to a degree program.

Admission of Graduating Seniors

An applicant in the last semester of his/her senior year of undergraduate study at Henderson State University may request admission to graduate study. If the student is otherwise qualified, admission is conditional until the bachelor's degree is awarded. A student, if admitted to graduate study, may take up to six (6) hours of graduate credit in order to bring his/her total load to fifteen (15) semester hours in a semester, or six (6) semester hours in a summer term. If the student fails to receive the undergraduate degree, graduate credit will not be awarded.

Admission of Non-Degree Students

A student who does not meet the requirements for full or conditional admission to graduate school may be admitted as a non-degree student for a maximum of twelve (12) hours provided he/she has the prerequisite courses. These twelve (12) hours may not be counted for degree credit toward a Master's degree and may not be transferred.

Senior Citizens

U.S. citizens who have reached the age of 60, and have completed a bachelor's degree, are eligible to take graduate classes, regardless of undergraduate GPA or particular test scores. Such students will be classified as "non-degree-seeking" and will be assigned to the Graduate Dean for advising. If a senior citizen wishes to pursue a graduate degree and does not meet the standard eligibility requirements, the degree program director, in conjunction with the Graduate Dean, will assess the student's abilities after 9-12 hours of course work have been completed and determine whether to allow the student to continue on a degree track.

All scholastic and dismissal policies apply. Tuition for senior citizens is waived pursuant to Arkansas State Law 6-60-204; fees are not waived.

International Student Guidelines

Admission of International Students

In order to be considered for admission to graduate school, an international student must produce a complete set of official credentials to establish that he/she meets all requirements for full admission to the particular program for which application is made. An international student is not eligible for conditional admission. A complete list of credentials required for admission consideration is as follows:

1. Provide evidence of a TOEFL score of 550 paper based, or 213 computer based. We will also accept a score of at least 6.0 on the IELTS. Henderson State University code number is 6272.
2. Provide a completed financial statement form verifying that he/she can financially support him/herself while a student in the United States (approximately \$16,000 per calendar year, including living expenses). This is only an estimate as tuition and housing costs are subject to change. All applicants must be financially independent, as there is no financial aid guaranteed to international students attending HSU. Limited graduate assistantships are available. Tuition and fees are required at the time of registration and must be paid in U.S. funds.
3. Provide a certified transcript(s) in English from an accredited translation agency, indicating satisfactory preparation to enter the undergraduate college.
4. International students are required to purchase medical insurance through HSU. The cost is approximately \$62/month (this amount is subject to change). Payment of the insurance premium is to be made before or at the time of registration each semester. The medical insurance is mandatory.
5. A complete application for admission of international students, signed and dated. *(Please return the necessary paper work as listed via mail with a U.S. money order for \$75. The Graduate School will then determine your eligibility for admission. Files must be completed by November 30th for spring admission and June 30th for fall).*

When the above five (5) requirements are satisfactorily completed, the international student will receive a letter of admission and an I-20 form. In order to obtain a travel visa and to enter into this country, the international student must present the I-20 form to the American Consulate located in his/her country.

Upon receiving a letter of admission, international students should contact the Office of Residence Life at (870) 230-5083, or HSU Box 7554, or email reslife@hsu.edu, so that living arrangements can be secured in one of the residence halls if such services are needed.

If an International Student is chosen for a graduate assistantship, ALL paperwork and documentation must be complete and turned into the Graduate Office by the first day of registration in order for an International Student to qualify for a graduate assistantship. If any aspect of the student's paper work is not complete by the end of the first day of registration, then that position will be assigned to another student or will go unfilled for the remainder of the semester.

International students should review the university calendar carefully and must arrive no later than one day prior to registration; however, additional time is recommended. All international students entering HSU must attend a mandatory international orientation. **LATE ARRIVALS WILL NOT BE ALLOWED TO ENROLL AT HENDERSON STATE UNIVERSITY.** If international or other students notify us of arrival date, time, airline and flight number into the Little Rock airport, HSU will attempt to coordinate travel accommodations to the campus.

Admission to Candidacy

Every candidate for an advanced degree must make application for admission to candidacy. This application constitutes a degree plan. Prospective candidates for a Master's degree must meet the following requirements:

1. Admission to graduate study
2. Completed application for candidacy filed with the Dean of the Graduate School after the completion of nine (9) but not more than twelve (12) semester hours of graduate study
3. A grade point average of 3.00 (on a 4.00 scale) on all work completed
4. Completion of all required school examinations and prerequisites.

Graduate Assistantships

IMPORTANT NOTE FOR INTERNATIONAL STUDENTS: All appropriate documents required to meet HSU's I-9 employment authorization verification requirements must be presented to the Human Resources office within three (3) days of signing a contract. Furthermore, no student may begin work until a valid Social Security card has been presented to Human Resources.

Teaching, research, and service assistantships are available to qualified students. An assistantship permits a student to act as a departmental assistant with the principal function of enabling qualified students to continue their graduate work. The stipend for an assistantship is determined by the President of the university. Appointments may be terminated at any time for cause; for example, improper performance of duties or violation of accepted standards of behavior, or failure to maintain scholastic eligibility for graduate school. An assistantship can be awarded only to those students who qualify for full admission to graduate study and who also qualify for admission to the school governing the degree program.

Graduate assistants may receive a tuition waiver for up to twelve (12) hours for each semester that they are employed. The GA is eligible to receive a waiver for summer school tuition to equal the twelve (12) hours for one semester or twenty-four (24) hours for two semesters of employment.

- A graduate assistant who is employed for the Fall or Spring semester, and satisfactorily completes his or her terms of employment, receives a waiver for six (6) or nine (9) hours may then enroll in six (6) or three (3) hours — to equal a total of twelve (12) hours — during the Summer.
- A graduate assistant who is employed for both the Fall and Spring semesters, and satisfactorily completes his or her terms of employment, receives a waiver for six (6) or nine (9) hours in both semesters may enroll in twelve (12) or six (6) hours — to equal twenty-four (24) hours — during the Summer terms.

If a graduate assistant resigns or is dismissed from a position, no tuition waiver will be granted beyond the semester in which the student is employed.

Graduate Assistant tuition reimbursement applies ONLY to hours earned toward a student's degree requirements. At all times, the work of the graduate assistant must be under the supervision of the college/school to which he/she is assigned. Specific types of work of graduate assistants may include the following:

- Directing and evaluating laboratory work
- Preparing and evaluating tests
- Preparing bibliographical and other instructional materials
- Reading and evaluating themes and research papers
- Substitute teaching under supervision
- Actual teaching under supervision
- Gathering research data

- Monitoring examinations
- Supervising university facilities and activities
- Assisting business clients
- Performing other duties as assigned

A graduate assistant will successfully complete two graduate-level courses or their equivalence (a minimum of six hours) with a grade of C or better to maintain his or her graduate assistantship. Failure to do so will result in the loss of the assistantship. With extenuating circumstances, a student may appeal the loss of his or her assistantship to the Graduate Council. A graduate assistant will be responsible for approximately twenty (20) hours of work per week and for completion of the GA orientation sessions conducted by the Graduate School. A GA is assigned to a cohort group which acts as a support network for the GA. Service learning hours are strongly recommended. Additional responsibilities may be required by the college/school or department.

Steps for Applying for Assistantships

Job descriptions and application forms for all assistantships are available in the Graduate School office. Students desiring to apply should consult the qualifications listed in each description.

A graduate student seeking a graduate assistantship must:

1. Be fully admitted to the HSU Graduate School. Students under conditional admission may not receive assistantships.
2. Complete an application for a graduate assistantship.
3. Submit the application for a graduate assistantship to the Graduate school who will copy to appropriate GA supervisor and/or department chair.

Following approval, the GA supervisor and/or department chair will submit the application to the respective school dean for approval and recommendation to the Dean of the Graduate School. The Dean of the Graduate School will make final recommendation to the Vice President for Academic Affairs who will forward recommendations to the President. The President of the university will approve or disapprove each application. Incomplete applications will be returned to the department chair.

University policy is to provide equal educational and employment opportunities services, and benefits to students and employees without regard to race, color, national origin, or sex, in accordance with Title VI of the Civil rights Act of 1964, Title IX of the Education Amendments of 1972, Sections 799A and 845 Public Health Service Act, and Sections 503 and 504 of the Rehabilitation Act of 1973, where applicable.

Financial Aid/Scholarships

Graduate students wishing to apply for financial aid should contact the HSU Financial Aid Office in Womack Hall, Room 203A or call 870-230-5148. Scholarships which provide limited financial assistance are also available. For information pertaining to availability and required criteria, please contact the HSU Foundation Office at 870-230-5347.

Scholarships

THE WILLIS B. INMAN SCHOLARSHIP provides a limited award to a graduate student pursuing a Master's degree in Counseling.

THE HUGH LOVETT MEMORIAL SCHOLARSHIP provides a limited award to a graduate student pursuing a Master's degree in School Counseling.

THE CARL AND LOUISE DURKEE SPECIAL EDUCATION SCHOLARSHIP ENDOWMENT provides a limited award to a student pursuing certification in special education.

THE LINUS AND IVA MORTON SPECIAL EDUCATION SCHOLARSHIP ENDOWMENT provides a limited award to a student pursuing certification in special education.

Graduation

Each student **must** make official application for graduation at the beginning of the academic semester during which he/she expects to complete requirements or at the beginning of summer school if the student expects to graduate in August. There is no graduation ceremony in August, but diplomas reflect the August date. August graduates participate in the December graduation ceremony. Beginning in Fall 2003, candidates are no longer required to be present at graduation. Your participation in the graduation ceremonies will be strictly voluntary.

August graduates requesting to participate in the May commencement are required to enroll and pay for all summer courses on the first day of Summer/Fall pre-registration. Tuition and fees in this circumstance are non-refundable. Any August graduate with two C's or I's on his or her transcript on the day of pre-registration is not eligible to participate in the May ceremony. An application for graduation may be obtained from the Graduate School office, second floor Womack Hall.

The application deadlines are as follows:

December graduation	October 1*
May graduation	March 1*
August graduation	June 15*

A late fee of \$25.00 will be charged for Graduate School graduation applications received after the deadline.

General Information

Credits

Graduate credit will be given only for courses at 5000 and/or 6000 levels.

Transfer Credit

If students are enrolled in a degree program, graduate credit from approved institutions may be accepted, provided the courses transferred are appropriate to the student's curriculum, grades earned on such course(s) average "B", and the student's advisor approves the course(s) to be transferred. Graduate credit will not be granted for any course when the grade earned is below "C" or when the course has been graded on a credit/no credit basis. If the student wishes to transfer credit already earned before he/she enters the program at Henderson State University, the student must submit an official transcript at the time application is made. It will be evaluated, and the student will be notified concerning the acceptability of such credits.

If a student wishes to earn credits at another institution for transfer after he/she has been admitted, the student must secure a letter from the HSU Dean of the Graduate School to the dean of the institution which he/she selects, authorizing that student to enroll in courses for transfer to HSU. The student should obtain specific course approval from his/her advisor and the Dean of the Graduate School prior to enrollment. A student who fails to secure this authorization takes courses at other institutions at his/her own risk. The total number of credits which may be transferred to apply toward a degree is six (6) semester hours for a 36 hour degree and nine (9) semester hours for a 48 hour degree.

Correspondence Credit

Credit earned in correspondence courses will not apply toward the Master's degree.

Seminar / Workshop Credit

The university reserves the right to limit the number of credits which may be earned. Consideration will be given to the quality of the seminar and to the student's need for such work. Henderson workshops graded on a credit/no credit basis will not be counted toward degree credit. Seminar credit may be counted, but six (6) semester hours will be the maximum.

Off Campus Classes

Graduate courses may be offered at an off campus site during the fall and spring semesters and in the summer sessions. Distance learning courses count as on-campus classes, if originating at HSU.

Graduate School Academic Policy

Graduate students are required to earn a 3.00 cumulative grade point average before being admitted to candidacy as well as graduating from their graduate level program of study. Failing to earn this average on the minimum number of semester hours required for completion of the degree, the student may (re)take as many as six additional hours in an effort to accumulate a grade point average of 3.0. A student may not continue in a program with more than two (2) grades of "C" on his or her transcript; nor may a student continue in the program with a grade of "D" or "F". Courses in which a grade of "C" is earned may be repeated with permission of the course instructor and academic advisor. Courses in which a "D" or "F" is earned may be repeated only with permission of the course instructor, advisor, and departmental chair. *A student will be dismissed from the Graduate School if the student is denied permission to repeat a "D" or "F".*

A student will be placed on academic probation whenever his/her cumulative grade point average falls below 3.00. A student once placed on probation will have 12 credit hours to raise his/her cumulative grade point average to 3.00 or higher. If the cumulative grade point average has not been raised to 3.00 or higher after 12 credit hours, the student shall be suspended for one semester. Summer school is considered in the application of suspension from the university.

A student on academic probation who does not earn a 3.0 average by the completion of the semester shall be suspended for one semester. A student who has returned from probation following a period of academic suspension or who has been reinstated by the graduate level Admissions and Adjustments Committee must earn at least a 3.00 average each semester while on probation in order to continue as a student. If a student receives a second suspension for academic reasons, he/she will be dismissed from the Graduate School.

MBA STUDENTS admitted on condition may be dismissed from graduate school if a "B" is not earned in each graduate course in the first twelve (12) hours.

NON-DEGREE STUDENTS who do not meet the requirements for full or conditional admission to graduate school may be admitted in a non-degree status, but will be dismissed after completion of six (6) hours. The hours will not be counted for degree credit toward a Master's degree. This policy does not apply to senior citizens.

Incomplete Grades

Each spring, a list of incomplete grades will be sent by the Dean of the Graduate School to all Deans and Department Chairs. If a student does not complete the work in one calendar year following the semester's end, the Dean will automatically issue the grade of "F" for the course(s). If a student needs an extension of time beyond the calendar year, he or she must obtain approval from the instructor of record for the courses and the program director. Program directors may request and provide justification for a specific extension of time from the Dean of the Graduate School.

Time Limit for Completion of Program

All requirements for Master's degrees, except those in Counseling, must be met within six (6) calendar years after the beginning of the student's program, exclusive of any time spent in the

armed forces of the United States. The Master's degrees in Counseling must be completed within eight (8) calendar years. Transfer credit presented to meet the requirements for the Master's degree at Henderson State University must have been earned within seven (7) years, nine (9) in the case of Counseling, prior to graduation. If for reasons beyond the student's control, he/she is unable to complete all requirements within the time limit allowed, he/she may apply to the Dean of the Graduate School for an extension of one year.

Graduate Student Advisors

When a student is notified of his/her eligibility for admission to graduate study, he/she will be assigned an advisor by the Dean of the Graduate School. The chairperson may reassign the student to a member of the staff who is especially qualified to direct that student's graduate work. A Graduate Advisor's Handbook is provided to each advisor who is responsible for the following duties:

1. Helping the student plan a unified and balanced program of graduate work which is adapted to the student's particular interests, needs, abilities, and is directed toward the student's field of specialization.
2. Recommending the student for admission to candidacy for the degree after nine (9) and before twelve (12) hours of work.
3. Approving the application for graduation.
4. Discussing with the Dean of the Graduate School such matters as will contribute to the success of the student's program.

Teacher Licensure

The university does not grant or issue teaching, counseling, or administrative licenses. Application must be made directly to the Division of Teacher Education and Licensure, Arkansas Department of Education. Application forms may be secured from the HSU Licensure Officer. Assistance is also available as to the logistics of planning for and applying for initial and additional license areas. No standard licenses are issued by the State Department without appropriate test scores, grade point averages, and official transcripts documenting requisite coursework.

Graduate Study Load

The maximum load for a summer term is six (6) semester hours, or a total of twelve (12) hours for the entire summer session. The maximum load for a graduate student is twelve (12) semester hours each semester during the regular academic year. This twelve (12) hour maximum also applies to a student who is enrolled in graduate and undergraduate courses concurrently.

Note: Six (6) hours is considered full-time status for a graduate student during the fall and spring semesters; 3 hours is considered full-time status during summer terms. This does not apply to international students who are required to be enrolled in nine (9) hours during the fall and/or spring semesters.

A student may withdraw during the first two (2) weeks of the regular summer term or during the first six (6) weeks of a semester without penalty. If the course is taught in a compressed format, withdrawal dates may be adjusted. Failure to withdraw officially will result in the assignment of a grade of "F."

Thesis Requirement

A thesis is optional for the MSE in all secondary education specialization fields. A student who elects to write a thesis must confer with the department chairperson concerning the nature of the topic, the selection of an appropriate major professor to direct the thesis, and the appointment of a thesis committee. The student should initiate such a conference as early in his/her program as possible. In the case of an MLA student, a Liberal Arts Project, or Thesis, must be successfully completed and may involve substantive research in the form of a thesis or other creative project, as decided by the student and his/her academic advisor.

Following admission to candidacy and completion of an appropriate introductory research course, the student should submit a thesis proposal to the Graduate School. The proposal must be filed at least three (3) months before the date set for the oral defense of the thesis. After the proposal and a version of the thesis have been accepted by the student's major professor, the thesis must be submitted for approval to the rest of the committee composed of two other graduate faculty members, one of whom may be from a department outside the student's major area of study. The committee members and the Graduate Dean must receive copies of the thesis at least three (3) weeks prior to the date of the oral defense. The defense, which is conducted by the committee chaired by the major professor, will occur no later than two (2) weeks before the date of graduation.

In preparing the thesis, the student should follow the instructions contained in Preparation of the Master's Thesis, available through the Office of the Graduate School.

The total number of thesis hours for which a student may enroll is six (6). A grade of "R" will be recorded on the student's transcript for the thesis hours at the end of the semester. The grade of "R" is not an evaluative measure but rather denotes continuing work on thesis hours. At the conclusion of the thesis process, the thesis committee chair will notify the Graduate Dean of the appropriate letter grade in order for the "R" to be changed.

The student should obtain approval of the advisor and the Dean of Graduate School prior to final printing of the thesis. A student who fails to obtain this approval does so at his/her own risk. Upon completion, one copy is required for the library, one copy for the student's major department, and one copy to the Graduate School.

More detailed guidelines concerning the thesis proposal, the preparation of the thesis, and the thesis approval process are available in the Graduate School or from graduate student advisors.

FEES

The university reserves the right to change the amount of fees and the charge for on campus meals and housing or to add new charges at any time such action is deemed necessary. Current fee information is available from the Graduate School.

HOUSING INFORMATION

During the regular academic year, fall and spring semesters, all residence halls are open to both undergraduate and graduate students. Graduate students wanting to stay on campus during the summer sessions should contact Whispering Oaks.

The Residence Life Office also provides listings of available facilities upon request. The Residence Life staff welcomes the opportunity to serve and encourages the student to apply early to be assured of reservations.

For more information, write to the Director of Residence Life, 1100 Henderson Street, Arkadelphia, Arkansas 71999 0001, or email reslife@hsu.edu.

Alpha Epsilon Lambda

Alpha Epsilon Lambda is the national honor society for graduate students. The purpose is to promote academic excellence, leadership, and service among graduate students. The Alpha Delta Chapter of Alpha Epsilon Lambda was chartered at Henderson State University on April 15, 1998. Nominees are required to meet outstanding academic scholarship, community leadership and service learning standards and must be nominated by the graduate student's advisor. Two initiation ceremonies are held annually. The dean of the graduate school is the AEL Sponsor with officers elected annually.

Dismissal from The Graduate School

A student may be dismissed from the Graduate School for the following infractions:

- A student is officially reported to the Graduate Dean for plagiarism or cheating
- A student receives two academic suspensions

A student who is admitted on **CONDITION** may be dismissed from the Graduate School if a 3.0 GPA is not maintained throughout all graduate work. A student who is not in good standing in one graduate program **is not eligible** to switch to another program.

MASTER OF ARTS IN TEACHING (MAT)

MISSION

The mission of the Master of Arts in Teaching (MAT) program is to provide essential pedagogical training for candidates who hold a baccalaureate degree in an academic discipline. This degree program provides such individuals with an avenue to enter the teaching profession as expeditiously as possible.

PURPOSE

The Master of Arts in Teaching program at Henderson State University is a 2-year alternative route to teacher licensure. The program allows candidates to simultaneously obtain an advanced degree and a teaching license.

The MAT program, through its course structure and sequence, addresses the critical knowledge and skills for the methodology or techniques of teaching as well as focuses on the art of teaching. The program is designed to provide guidance and feedback on day-to-day activities or behaviors and to investigate effective strategies for change or resolution.

GOALS

The overall goal of the MAT program is for individuals at the end of a two-year time period to achieve both teacher licensure and a masters degree. To meet this goal, the MAT degree program is field based and focuses on the competencies exhibited in the four domains and 22 criteria found in Charlotte Danielson's *Framework for Teaching*. The MAT degree consists of accelerated professional development courses coupled with knowledge and experience gained from teaching in the public schools.

The MAT degree includes a curriculum focusing on the following areas of instruction:

- Basic principles of teaching
- Developmental growth and learning stages for middle and high school students
- Methods and procedures necessary for effective teaching
- Unique needs of children with exceptionalities
- Basic principles of applied research
- Integration of classroom technology across the curriculum
- Methods of teaching children with disabilities
- School law and professional dispositions
- Assessment procedures and practices
- Field experiences within the MAT teacher's own classroom

LICENSURE AREAS

Candidates may be admitted to and complete the MAT program for middle level and secondary licensure upon verification that the candidate has a bachelor's degree. Middle level candidates will select two content areas from English Language Arts, science, math, and social studies for licensure. Secondary licensure may be obtained in one of the following content areas: English, math, life science, physical science, family consumer science, speech, drama, and social studies.

Licensure areas for grades K-12 include art, business, foreign language, music, and physical education.

GRADUATE ADMISSION GUIDELINES

The HSU Graduate School will serve as the initial admission center for all prospective candidates. A student must have a Bachelor of Arts or a Bachelor of Science Degree from an accredited college or university verified with an official transcript. If the candidate does not have an undergraduate major in a licensure area, he/she may need to take additional course work. Along with the application to the Graduate School, a candidate should submit official transcripts from each institution attended.

Full admission is based upon the following requirements:

- 2.7 GPA cumulative OR
3.0 average or above on the last 60 hours of undergraduate credit.

ADMISSION TO MAT PROGRAM

The MAT Coordinator will facilitate the program admission process. The following items must be submitted to the MAT Coordinator:

- Official transcript showing the bachelors degree
- Letter of hire from the employing school district
- Passing scores on the Praxis Core and Praxis II content tests

Once a candidate is employed, a license application will be completed along with state and FBI background checks. A Child Maltreatment check is also performed. All candidates are required to attend summer MAT Orientation during which time an entrance interview will take place. The MAT interview panel is facilitated by the MAT Coordinator and composed of HSU faculty, public school administrators, and faculty.

PROGRAM OF STUDY

The MAT program consists of four terms and one summer session emphasizing methodology, pedagogy, classroom management, human growth and development, and needs of exceptional children as well as other critical areas. Course design and curriculum development, reviewed by superintendents and principals from partnership schools, reflect current research on effective teaching and student learning. Charlotte Danielson's *Framework for Teaching* serves as the basis for the evaluation process for the program. A trained, public school mentor, will be assigned to each candidate by the building principal where the MAT teacher is employed.

FALL ENTRY	Master of Arts in Teaching Program—Employment or Internship Required Curriculum Outline and Sequence for 7-12 Licensure
Summer	EDU 6460 MAT Orientation (one week intensive training-30 hours-must earn CR)

DISMISSAL GUIDELINES

Candidates may be dismissed from the program or graduate school for any of the following reasons:

- Not meeting GPA requirements
- Termination of employment
- Failure to score at required levels on Praxis exams

Candidates who are dismissed may file a written appeal with the graduate school (or the designated committee) who will consider appeals on a case-by-case basis.

EXIT GUIDELINES

Candidates must meet all exit requirements for masters level programs as stated in the current HSU Graduate Catalog.

EXIT INTERVIEW

MAT candidates are recommended for a standard teaching license upon completion of ALL requirements of the MAT degree, which include an exit interview. **The exit interview will include the presentation of the candidate's impact on teaching project.** The candidate will present of an impact on teaching project as part of the exit interview. An interview committee composed of university faculty and a superintendent, principal, or faculty from the partnership schools will interview with each participant.

Praxis Exams

Praxis II PLT/Pedagogy must be passed in order to receive a course grade for the capstone course, EDU 6163 Field Experience 3. As a result, Praxis II PLT/Pedagogy must be passed prior to exit from the program and prior to the issuance of the degree.

MASTER OF BUSINESS ADMINISTRATION (MBA)

Admission to the MBA program is contingent upon the applicant having a bachelor's degree from an accredited institution with a grade performance indicating probable success at the graduate level. In addition, performance on the Graduate Management Admissions Test (GMAT) or the Graduate Record Exam (GRE) is used in evaluating an applicant.

The MBA program can be completed on a full time or part time basis; students may take course on the Arkadelphia or Hot Springs campuses or online.

Full Admission

The following minimum criteria must be met in order to be considered for review for admission to the MBA program:

1. A 4 year bachelor's degree from an accredited institution.
2. Approval from the Dean of the Graduate School and the Dean of the School of Business.
3. A minimum undergraduate GPA of 2.70 **OR** 3.0 undergraduate GPA in the last 60 hours.
4. A minimum GMAT score of 400* **OR** Minimum GRE score of 470 Verbal/410 Quantitative*.
5. A minimum GPA/GMAT index of 1000 (formula: GPA x 200 plus GMAT score equals index).
6. A minimum TOEFL of 550 OR IELTS of 6.0 (International students only).

* Students who have an undergraduate GPA which equals or exceeds 3.50 **OR** have undergraduate GPA of 3.0 in the 7 business core prerequisite courses are exempted from taking the GMAT/GRE. If the GMAT/GRE is required, it must be taken (with the minimum score and index obtained) before enrolling in the **3rd** MBA course. For information on the GMAT or GRE, visit www.mba.com or <http://www.ets.org/gre>.

Undergraduate Prerequisites

Basic undergraduate preparation in Business Administration is a requirement for taking graduate courses leading to the MBA. A student with a Bachelor of Business Administration degree or its equivalent normally will have completed the basic courses needed. A student whose undergraduate degree is in another discipline can meet these requirements by completing courses in the following prerequisite areas:

Principles of Accounting – Financial (Accounting A) ⁺	3 Hours
Principles of Accounting – Managerial (Accounting B)	3 Hours
Principles of Economics – Microeconomics	3 Hours
Management OB (Principles of Management) ⁺	3 Hours
Principles of Marketing ⁺	3 Hours
Business Finance	3 Hours
Business Statistics	3 Hours
<hr/> TOTAL	<hr/> 21 Hours

As an alternative, a student can demonstrate proficiency in these areas on an approved test, such as the CLEP⁺ test. A student must earn a “C” or better in all prerequisites. The MBA Council

may, upon recommendation of the MBA Director, require that the student repeat certain prerequisite courses taken as an undergraduate. A student will not be admitted to candidacy for the MBA prior to having completed these prerequisites. Courses may not be taken for graduate credit without the proper prerequisite for that course. However, courses in a particular field may be taken if the prerequisite for that field is satisfied even though the prerequisites for all areas have not been met.

Admission to Candidacy for MBA Degree

A student may be admitted to candidacy for the MBA degree upon meeting the following requirements:

1. Students must apply for candidacy upon completion of nine (9) hours and prior to completion of twelve (12) hours with a grade point of 3.00 or better.
2. Completion of application form filed with the Dean of Graduate School.

The MBA Council

In those cases where a student believes an exception to these stated policies is warranted, the student may request that the MBA Council for the School of Business grant such an exception. The Dean of the School of Business and the MBA Council, consisting of the MBA Director and the MBA faculty members, will review such cases on an individual basis. Only under extraordinary circumstances will an exception be made.

The Master of Business Administration program is accredited by AACSB International-The Association to Advance Collegiate Schools of Business.

The MBA degree provides a strong foundation of courses targeted to develop the students' entrepreneurial skills while preparing them for successful careers in business, government, and not-for-profit organizations. In addition, the curriculum is designed to prepare students for further advanced study. The general requirements and curriculum are listed below.

Each student in the program will work with the MBA Director to design a program which will meet degree requirements. It is the student's responsibility to maintain appropriate contact with the MBA Director so that satisfactory progress toward degree completion will be achieved.

General Requirements for the Degree

The MBA degree is a thirty (30) hour non thesis program for persons with an undergraduate Business Administration degree from an accredited institution or possessing the specified prerequisites. No more than the first thirty six (36) hours of graduate credits will be used to determine the student's grade point average for graduation requirements.

A maximum of six (6) graduate hours may be transferred from another accredited college with the approval of the MBA Director. A student will be dropped from the program when it becomes apparent that he/she cannot meet graduation standards for the MBA degree. Upon receipt of a third "C", the student will be dismissed from the program.

Curriculum

The MBA curriculum requires eight core courses totaling twenty-four (24) hours of credit plus two elective courses totaling six (6) hours of credit. Within the current MBA curriculum, students may choose a general MBA or a MBA with a concentration in Public Management.

Students who have completed a course for undergraduate credit at the 4000 level may not repeat the same course at the 5000 level for graduate credit. Students must select the two graduate business electives from the following areas: accounting, business information systems, economics, finance, general business, management or marketing.

Courses required in the MBA Program:

Course #	Course Name
Fall and Spring semesters (see MBA website for course)	
ACC 6123	Acc. for Bus. & Fin. Mgmt.
BIS 6253	Strategic Information Systems
ECO 6043	Public Economics
FIN 6113	Managerial Finance
MGM 6123	Organizational Strategy
MKT 6063	Marketing Seminar
PSC 5063	Public Administration/Public Management (required for Public Management concentration only) This course will replace one of these three courses: ECO 6043, ECO 6213, or MGM 6183 for students pursuing the MBA with an emphasis in Public Management.
Summer 1	
MGM 6183	Trends in Management
Summer 2	
ECO 6213	Economic Analysis for Managerial Dec.
5000/6000	Business Elective in any semester
5000/6000	Business Elective in any semester

Graduate elective courses are offered during the fall, spring and summer semesters.

Students must choose two of the following approved electives from below to complete their 30 hours MBA with a concentration in Public Management.

Course #	Course Name
ACC 5243	Not-for-Profit Accounting
MGM 5053	Non-Profit Management
MGM 5003	Internship
MGM 5063	Grant Writing and Non-Profit Funding
MGM 5083	Public Budgeting and Finance
MGM 6193	Policy Formulation and Implementation
PSC 5163	Public Policy
PSC 5303	Research Methods

MASTER OF LIBERAL ARTS (MLA)

Full Admission

For full admission to the MLA program, one should demonstrate qualifications through the following:

1. Official transcript of undergraduate work, evidencing a baccalaureate degree from an accredited institution and reflecting an overall undergraduate grade point average of at least 2.70 on a 4.0 scale.
2. A completed application for admission to the Graduate School.
3. A written essay responding to a designated topic or a writing sample of a formal, academic essay of at least eight pages.
4. An interview with the MLA Director.

Conditional Admission

For conditional admission to the MLA program (when an applicant's grade point average does not meet the standard for full admission), one should submit an acceptable score (at least 500 on the verbal section and at least 4 on the written section) on the Graduate Record Examination General Test (GRE), in addition to the above items.

The Master of Liberal Arts degree is designed to cultivate an appreciation of cultural ideas and ideals such as truth, order, and beauty. The program focuses on the development of critical thinking, written and oral communication, and scholarly research. Before receiving an MLA degree, students must complete either a thesis or a project unless they are completing the Teaching English in the Two-Year College track.

The MLA degree is a thirty-six (36) hour program which offers students interdisciplinary courses of study especially developed for those who are motivated by intellectual curiosity and who are interested in exploring the liberal arts from a variety of perspectives. Students must maintain a 3.00 grade point average to remain in the program.

General Requirements for the Degree

Required courses for Master of Liberal Arts (12 hours)

LA 6103	Truth, Order and Beauty: Ancient World to 1600
LA 6203	Truth, Order and Beauty: 1600 to Present
LA 6503/6513	Liberal Arts Project I & II
	or
LA 6543/6553	Liberal Arts Thesis I & II

Major

Five (5) or six (6) courses or 15-18 hours are required to complete a major emphasis in the MLA Program. Emphasis may be completed in either Art History, Literature, Rhetoric and Composition, Philosophy, Rhetoric and Philosophy, Teaching English in the Two-Year College, or Social Sciences. Of these major courses at least one course, three (3) hours, must be designated as interdisciplinary (denoted by an asterisk in the course listings).

Minor

Two or three courses are required to complete a minor and may be chosen from any non-major area. Of the minor courses, at least one course must be interdisciplinary.

NOTES: Of these thirty-six hours, eighteen hours must be taken at the 6000 level.

ART HISTORY

(Courses applicable for MLA)

The following courses (12-15 hours) are required for the Art History emphasis:

- ART 5013 Art of the Non-Western World
- ART 5293 Contemporary Art*
- ART 5783 History of Photography*
- ART 6553 Readings in Art History* (may be repeated once for credit)

Choice of one or two (3-6 hours) of the following studio areas (each will include scholarly research and an essay):

- ART 5093 Experimental and Contemporary Media
Prerequisites: ART 1043, 1053, 1073 or permission of instructor
- ART 5743 Special Problems in Papermaking
Prerequisites: ART 1043, 1053, 1073 or permission of instructor
- ART 6473 Special Problems in Ceramics
Prerequisites: ART 3113 or permission of instructor
- ART 6483 Special Problems in Drawing
Prerequisites: ART 2083 or permission of instructor
- ART 6493 Special Problems in Painting
Prerequisites: ART 3123 or permission of instructor
- ART 6503 Special Problems in Printmaking
Prerequisites: ART 4213 or permission of instructor
- ART 6563 Special Problems in Photography
Prerequisites: ART 3443 or permission of instructor
- ART 6643 Special Problems in Sculpture
Prerequisites: ART 4253 or permission of instructor
- ART 6693 Special Problems in Digital Design
Prerequisites: ART 3363 or ART 4413 or permission of instructor—student must demonstrate the appropriate technical proficiency for projects proposed

Before being admitted to the studio selections in the program, the prospective candidate will present, for evaluation by the art faculty, examples of his or her work in the medium selected. If significant deficiencies are identified, the student will be required to complete preparatory work (undergraduate level) which will strengthen skills in the desired area and allow him or her to work on graduate level studio projects.

ENGLISH, RHETORIC and COMPOSITION, TEACHING ENGLISH IN THE TWO-YEAR COLLEGE, and PHILOSOPHY

Students may pursue the MLA along one of five tracks within the Department of English, Foreign Languages, and Philosophy – English, Rhetoric and Composition, Philosophy, Rhetoric and Philosophy, or Teaching English in the Two-Year College. Students may not major in one of these areas and minor in another of them. Students seeking the MLA in “English, Rhetoric and Composition, and Philosophy” may not present hours for the minor requirements of the degree from English, Rhetoric and Composition, or Philosophy.

Literature Track (Students will complete 5-6 courses from among the following.)

ENG 5103	Shakespeare
ENG 5123	Renaissance Literature of England
ENG 5163	Modern Grammar
ENG 5173	Modern Drama
ENG 5323	Greek Drama*
ENG 5593	English Novel: 1830-1950
ENG 5653	Medieval Literature*
ENG 5673	English Novel to 1830*
ENG 5963	Special Topics
ENG 5193	Victorian Literature*
ENG 5203	English Romantic Literature*
ENG 5213	English and Its Development
ENG 5223	American Novel*
ENG 5303	Literature of the American South*
ENG 5353	Eighteenth Century English Literature*
ENG 5403	Topics in Women’s Literature*
ENG 5533	The Romantic Movement in American Literature
ENG 5583	International Short Story*
ENG 5603	Contemporary Literature*
ENG 5633	Introduction to Literary Criticism
ENG 6253	Problems in Interpretation*
ENG 6273	Seminar in American Literature*
ENG 6283	Seminar in English Literature*
ENG 6433	Seminar in Comparative Literature*

Rhetoric and Composition Track (Students will complete 5-6 courses from among the following.)

ENG 5163	Modern Grammar
ENG 5213	English and Its Development
ENG 5453	Advanced Composition*

ENG 5633 Introduction to Literary Criticism
ENG 5643 Rhetoric and Composition
ENG 5663 Introduction to Linguistics
ENG 6493 Readings in Rhetoric and Composition+

Philosophy Track (Students will complete 5-6 courses from among the following.)

PHI 5003 Special Topics
PHI 5043 Ancient Philosophy*
PHI 5053 Modern Philosophy*
PHI 5073 20th Century Philosophy*
PHI 5643 Rhetoric and Composition
PHI 5663 Introduction to Linguistics
PHI 6493 Readings in Philosophy*+

Rhetoric and Philosophy Track (Students will complete 5-6 courses from among the following.)

ENG 5163 Modern Grammar
ENG 5213 English and Its Development
ENG 5453 Advanced Composition*
ENG 5633 Introduction to Literary Criticism
ENG 5643 Rhetoric and Composition
ENG 5663 Introduction to Linguistics
ENG 6493 Readings in Rhetoric and Composition+
PHI 5003 Special Topics
PHI 5043 Ancient Philosophy*
PHI 5053 Modern Philosophy*
PHI 5073 20th Century Philosophy*
PHI 5643 Rhetoric and Composition
PHI 5663 Introduction to Linguistics
PHI 6493 Readings in Philosophy*+

* Designates a course that is interdisciplinary.

+Reading courses may be repeated once with the permission of the department head and the MLA director.

The following are cross-listed courses:

ENG 5643/PHI 5643 Rhetoric and Composition

ENG 5663/PHI 5663 Introduction to Linguistics

Students cannot take a cross-listed course for credit toward the degree under both prefixes. For example, if a student takes ENG 5643 Rhetoric and Composition for fulfillment of the major requirements for the MLA degree, that student cannot take PHI 5643 Rhetoric and Composition for credit.

Teaching English in the Two-Year College (Students will complete the following required courses.)

LA 6103	Truth, Order, and Beauty: Ancient World to 1600
LA 6203	Truth, Order, and Beauty: 1600 to Present
ENG 5163	Modern Grammar
ENG 5453	Advanced Composition
ENG 5643	Rhetoric and Composition
ENG 6283	Seminar in English Literature
ENG 6273	Seminar in American Literature
ENG 6433	Seminar in Comparative Literature
LA 6113	Teaching and Technologies in the Two-Year College
LA 6123	Internship
Electives	Two additional non-English graduate classes (6 hrs).

SOCIAL SCIENCES

(Courses applicable for MLA)

Students with a concentration in social sciences are required to complete one of the following three courses:

HIS 6573 Historiography and Bibliography

OR

HIS 6583 Research Seminar

OR

PSC 6183 Seminar in Politics

(When deciding which of the above courses he or she wishes to take, a student should select a course appropriate to his or her thesis/project area.)

The following is a list of Social Sciences courses from which a student may choose a major or minor MLA emphasis:

ANT	5053	World Cultures
ANT	5058	Readings in Anthropology*
ANT	6103	Anthropology of the Caddo Indians
ANT	6113	Archeology of the Caddo Indians
GEO	5043	Economic Geography*
HIS	5093	Vietnam and the United States
HIS	5213	The American West
HIS	5233	American Foreign Policy*
HIS	5263	Arkansas and the Southwest
HIS	5283	American Constitutional Development*
HIS	5293	The Old South
HIS	5313	History of American Labor
HIS	5333	American Women's History
HIS	5443	Medieval World
HIS	5603	Tudor and Stuart England

HIS	5623	Modern German History
HIS	5643	French Revolution and Napoleon*
HIS	5653	Modern Russian History
HIS	5683	Modern Middle East
HIS	5693	African History
HIS	5713	Social and Political Thought*
HIS	6563	Readings in History
HIS	6573	Historiography and Bibliography*
HIS	6583	Research Seminar*
PSC	5053	American Constitutional Development*
PSC	5073	Social and Political Thought*
PSC	5093	International Relations
PSC	5103	American Foreign Policy*
PSC	5163	Public Policy
PSC	5173	Civil Liberties
PSC	5233	Comparative Politics in the Middle East
PSC	5243	Comparative Politics in Africa
PSC	6183	Seminar in Politics*
PSC	6983	Special Topics
SOC	5063	World Cultures
SOC	5123	Seminar in Sociology
SOC	5183	Death and Dying

*Interdisciplinary course

MINOR COURSES

Any MLA emphasis-area course outside of the student's major can count toward the minor except for the stipulations in the English, Rhetoric and Composition, and Philosophy area. The following is a list of additional courses from which a student may select to complete minor MLA requirements:

COM	5133	Rhetorical Theory*
COM	5141	Individual Study*
MMC	5293	Creative Nonfiction*
MUS	6113	Music and Culture*
PSY	5353	Psychology in Literature*
THA	5443	History of Theater*

Other graduate courses and newly created graduate courses may apply toward MLA degree with the approval of the MLA director and the Dean of the Graduate School.

MASTER OF SCIENCE IN SPORTS ADMINISTRATION

Henderson State University offers a Master of Science in Sports Administration program that focuses on the business of athletics, from professional teams to youth leagues. The degree is a one or two year program of study. The program employs faculty and staff who have access to local and nationwide executives, sports industry leaders, corporate sports consultants and a broad range of other professionals in collegiate, professional and amateur sports administration.

Henderson State University provides a comprehensive learning experience for students looking to build a career in sports. With outstanding academic and athletic departments, a strong alumni network and elite networking opportunities, the Master of Science in Sports Administration program has quickly become regarded as one of the top graduate programs in its field.

The goals of the Sports Administration degree program are

1. to develop the academic and professional competencies of the student.
2. to increase knowledge of the major literature in the field of Sports Administration.
3. to develop competencies for independent study in methods of inquiry through quantitative and qualitative research methods.
4. to increase knowledge of the subject matter content in the field of Sports Administration.

In keeping with the mission of Henderson State University and its Graduate School, the mission of the HPER/AT Sports Administration Program is to be a leader in the overall development of students, as well as the creation and dissemination of knowledge in the broadly defined sport industry. We are committed to excellence in all aspects of research, teaching and service to the sport community.

Entrance Requirements:

1. All prospective students must meet the Henderson State University Graduate Admissions requirements.
2. All prospective students to the MS in Sports Administration program will write a letter of application. In the letter, the candidates must state the reasons why they wish to pursue an advanced degree, provide a goal statement and detail all background and educational experience they have related to Sports Administration. Prospective students must provide three letters of recommendation. Letters of application will be reviewed by the Sports Administration graduate faculty. Recommendations will be submitted to the Graduate School.
3. All prospective students must interview with the graduate faculty of the HPER/AT Department to be admitted into the program. The results of the interview will determine if a student will be conditionally admitted to the program for one calendar academic year or unconditionally admitted to the program.

Course Requirements:

FALL SEMESTER:

HPR 6433 Marketing and Public Relations in Sports and Activity
HPR 6513 Organizational Behavior and Leadership in Sport
HPR 6683 Legal Aspects of Sport and Activity Management
HPR 6713 Social Dimensions of Sport and Physical Activity

SPRING SEMESTER:

HPR 5773 Financing Sports and Leisure Activities
HPR 6243 Ethical Decision Making in Sport Activity
HPR 6543 Facility Planning and Management
HPR 6793 Research in Sport and Physical Activity

Summer I

HPR 6360 Portfolio and Field Experience Seminar
HPR 6396 Field Experience in Sport and Activity Management
*OR

Summer II

HPR 6373 Sport Event Planning and Fundraising
HPR 6703 Sport Compliance

*A graduate student can choose to take **HPR 6360 Portfolio and Field Experience Seminar** and **HPR 6396 Field Experience in Sport and Activity Management** OR the two elective classes **HPR 6373 Sport Event Planning and Fundraising** and **HPR 6703 Sport Compliance**.

Exit Requirements

All students in the MS in Sports Administration program will, upon completion of their course work or while completing their course work, take a comprehensive written exam over the course material. Students who have an “I” on their transcript will not be allowed to take comprehensive exams. If the student does not pass the comprehensive written exam on their first attempt, they will only be allowed **one additional** re-write. If, on the second attempt, the student does not pass the comprehensive exam, they will meet with department chair to determine course of action.

All students will be required to purchase access to the TK20 program and prepare a comprehensive portfolio demonstrating their educational experience gathered in the MS in Sports Administration program. This comprehensive portfolio is to be submitted, using the TK20 program, at the conclusion of their course work. During a scheduled exit interview, the portfolio will reviewed by a committee of the graduate faculty in the Sports Administration program for determination of successful completion of the program.

At the beginning of the semester, the student will take comprehensive exams, an online application form must be completed and submitted to the HPER/AT Administrative Assistant.

The student will have one year to complete comprehensive exams after approval of their graduation application for master’s degree in sports administration. This application will need to be submitted during the final semester of course work.

MASTER OF SCIENCE IN DEVELOPMENTAL THERAPY

Mission

The mission of the Master of Science in Developmental Therapy is to prepare reflective and compassionate developmental therapists who are able to evaluate the needs of infants and toddlers with exceptionalities and plan appropriate interventions and instruction for the children and families that they serve. Moreover, faculty members involved in the developmental therapy program are committed to preparing professionals who meet or exceed the certification standards established by the Arkansas Department of Human Services (ADHS) Division of Developmental Services.

Description of Purpose

The Department of Advanced Instructional Studies and Educational Leadership, in consultation with the Special Education faculty, developmental therapy practitioners, and representatives from ADHS Division of Developmental Services, developed the Master of Science in Developmental Therapy for individuals seeking a master's degree and certification as developmental therapists. The MS in Developmental Therapy includes the 15 hours of master's level courses required by ADHS for certification in developmental therapy and an additional 15 hours of courses in child development, behavior management, legal issues, early intervention issues, early intervention methods, and advisor approved electives. This program will not lead to a teaching license.

Developmental Therapy Program of Study

Candidates who complete the Master of Science in Developmental Therapy are eligible for certification as developmental therapists through ADHS. This certification is required for those individuals who work with infants and toddlers with disabilities, ages birth through 2 years, who are receiving services in the First Connection Early Intervention Program. Henderson State University offers a Developmental Therapy Program of Study which consists of 15 hours of graduate-level course work, including a three-hour early intervention practicum. In this program, candidates will demonstrate their ability to work and collaborate effectively with families, evaluate the needs of infants and toddlers, and design appropriate interventions and instruction. Candidates will also demonstrate their ability to implement designated interventions through the Individual Family Service Plan (IFSP), monitor and evaluate the IFSP for effectiveness, and revise the plan when needed. Candidates will focus on the skills necessary to instruct and supervise others in implementing the IFSP.

Admission to Candidacy Requirements

In addition to the admissions requirements to HSU's Graduate School, the Master of Science in Developmental Therapy also requires the following specific admission requirements:

1. Bachelor's degree in approved social service field. See advisor for details.
2. Current Resume
3. Initial formal interview with graduate special education faculty member.

Based on the results of this assessment process, an individualized degree plan is formulated. This plan represents the necessary coursework for the candidate to develop the required competencies to be certified by ADHS as a Developmental Therapist.

Required Coursework for the Master of Science in Developmental Therapy

Courses required by ADHS for Developmental Therapy Certification are listed in italics.

EDU 6663	Adv Child/Adolescent Development (or Substitution with Advisor Approval)
<i>SPE 5103</i>	<i>Advanced Methods of Instructing Children with Mild/Moderate Disabilities</i>
SPE 6313	Special Education Law
SPE 6323	Behavior Management
<i>SPE 6353</i>	<i>Advanced Studies in Early Childhood Special Education</i>
SPE 5393	Advanced Methods of Instructing Students with Severe to Profound Disabilities
SPE 6403	Assessment and Programming
SPE 6413	Practicum: Birth – 5 years
SPE 6493	Advanced Strategies in Early Intervention
-----	Elective (Advisor Approval Required)

Exit Criteria

1. The candidate must meet all exit requirements for master level programs as stated in the current HSU Graduate Catalog.
2. A major component of the course *SPE 6413 Practicum: Birth – 5 years* is the Exit presentation. During the Exit, the candidate will demonstrate that he or she possesses the appropriate knowledge, skills, and dispositions to effectively do the work of a developmental therapist.
3. An Exit Evaluation Committee will evaluate the candidate's Exit presentation using a scoring rubric.

MASTER OF SCIENCE IN EDUCATION IN SCHOOL COUNSELING & MASTER OF SCIENCE IN CLINICAL MENTAL HEALTH COUNSELING

The Department of Counselor Education at Henderson State University has two programs leading to graduate degrees in counseling. One program is the School Counseling Master of Science in Education (MSE). The programs are identical except for the Case Management and Internship course requirements. Students taking these courses receive special training related to their future aspirations as K – 12 school counselors. The second counseling program is the Clinical Mental Health Counseling Master of Science (MS). This program differs from the school counseling program with its emphasis on a clinical "mental health" approach that prepares the individual to work in the community and private sector.

The School counseling program is a (48) semester hour program, while the Clinical Mental Health Counseling program is sixty (60) semester hours. Students may attend them in a full-time or part-time fashion. The School Counseling Program prepares its students with coursework leading to the Arkansas Department of Education license for school counseling. The Clinical Mental Health Counseling program prepares its students with coursework leading to the Arkansas Board of Examiners licensure as Licensed Associate Counselors. Applicants for state licensure are required to have sixty semester hours of counseling graduate coursework credit.

Counselor Education Mission

Henderson State University is the Public Liberal Arts Comprehensive University of Arkansas. It serves the Arkansas consumer by providing higher education opportunities for its graduate and undergraduate students.

The Counselor Education program at Henderson is committed to offering studies in School Counseling and Clinical Mental Health Counseling leading to the personal growth of students and ultimately benefiting the diverse client groups they serve. The primary mission of the program is to select highly qualified and motivated students and prepare them to become effective professionals in counseling and related fields. Successful students learn how to apply theory, acquire a repertoire of helping skills, evaluate their personal attributes, and listen with the accuracy and empathy necessary to work with people on a personal level.

In consonance with Henderson's liberal arts mission statement, the Counselor Education program seeks to promote students' growth through the attainment of knowledge and the acquisition of necessary skills in a manner that will develop in each student the capability to think logically and critically, communicate effectively, and appreciate the complexity and diversity of world cultures.

ADMISSIONS POLICY

A student seeking admission to a particular degree program must satisfy the general requirements of the Graduate School as well as any additional or more rigorous requirements set by the faculty of the graduate program to which the student seeks admission. Please thoroughly read the "Admission to Graduate Study... General Provisions" of the Henderson State University Graduate Catalog.

Program Admission Procedures

1. Contact the Graduate School or visit our website for an application packet for admission.
2. Submit to the Graduate School all application materials, including:
 - A. completed graduate school application form
 - B. official MAT, Praxis or GRE score report within the last five (5) years
 - C. a typed essay that reflects the applicant's rationale for pursuing a career in counseling and demonstrates an awareness of the following characteristics that are necessary for becoming an effective counselor:
 1. Ability to work well with others in a caring and authentic manner;
 2. Awareness of cultural issues in counseling and evidence of being non-judgmental;
 3. Possession of integrity and ethical conduct;
 4. Commitment to professional development.
 - D. Three appraisal/recommendation forms completed by
 1. Work supervisor or someone familiar with the student's work performance and ethics
 2. A faculty member in the applicant's most recent academic program of study
 3. Anyone who can attest to the applicant's ability and/or character, except that it may not be completed by anyone who is a relative of the applicant.
3. The Graduate School does a review of the applicants file. If the applicant qualifies for admission to the Graduate School, the completed file is forwarded to the Department Chair.
4. The Department of Counselor Education reviews the applicants file; evaluates and interviews all candidates; decides if the applicant meets program requirements and expectations; sets any conditions of admission and appoints an academic advisor.
5. The Graduate School is notified of the applicant's admission status and the assigned academic advisor.

Advisors

Each first year full-time student has an assigned faculty advisor. It is the student's responsibility to meet a minimum of four times with the advisor during the first year of graduate study.

Program Admission Requirements

To be considered for admission to the Counseling Program, applicants must present evidence of qualities consistent with those required for effective counseling practice. The written statement prepared by the applicant, combined with the appraisal/recommendation forms from references, will be used as the basis for committee members' judgment of the applicant's personal and interpersonal qualities. All persons admitted to the program are required to meet the same standard in regard to these qualities.

Applicants also must present evidence of potential ability to perform academic work at the graduate level. Standardized test proficiency and past grade performance provide the primary data for judging academic ability; other indicators such as quality of writing in the applicant's prepared statement will also be considered. Based on the combination of test proficiency and past academic performance, an applicant may qualify for either unconditional or conditional admission status.

Once admitted to Graduate School you must then submit the following items for admission to the counseling program.

1. Official report of a score, obtained within the last 5 years, on either the Miller analogies Test (MAT) or the Graduate Record Exam (GRE) or the Praxis Core if pursuing a degree For School Counseling
2. A typed essay that reflects the applicant's rationale for pursuing a career in counseling and demonstrates an awareness of the following characteristics that are necessary for becoming an effective counselor:
 - Ability to work well with others in a caring and authentic manner;
 - Awareness of cultural issues and of being non-judgmental;
 - Possession of integrity and ethical conduct;
 - Commitment to professional development.

The essay is divided into five basic sections, each one designed so that *the first few words of each segment are provided* to get you started in the correct direction. *Complete each segment* (typewritten) so that you feel the *intent of that item* has been covered.

- Item 1: My rationale for pursuing a career in counseling is best expressed as follows:
 - Item 2: My ability to work well with others in a caring and authentic manner is best expressed and demonstrated by:
 - Item 3: My awareness of cultural issues, and of the necessity of being non-judgmental, is best expressed and demonstrated by:
 - Item 4: My possession of integrity and ethical conduct is best expressed and demonstrated by:
 - Item 5: My commitment to professional development is best expressed and demonstrated by:
3. Three appraisal/recommendation forms (See attached link)
 - One completed by a work supervisor or someone familiar with the student's work performance and ethics.
 - One completed by a faculty member in the applicant's most recent academic program of study.
 - The third form may be completed by anyone who can attest to the applicant's ability and/or character, except that it may not be completed by anyone who is a relative of the applicant.

If your recommendations are put on letter format we still request that the number rating part of the recommendation form be filled out by those who you choose. *It is recommended that you have persons who you use for recommendations place the completed recommendation in an envelope you provide, seal it, sign over the seal, and return the envelope to the applicant. Then*

you, as the applicant, return it to the Graduate School in person or by mail. This way you are certain that the recommendation has been completed.

Submit all of the above to the Graduate School.

HENDERSON STATE UNIVERSITY
GRADUATE SCHOOL
HSU BOX 7802
ARKADELPHIA, AR 71923

The Graduate School will forward these materials to the Department of Counselor Education. A live interview will then be scheduled following orientation with the faculty by the department secretary. The interview is part of the selection process. Upon successful completion of the interview, you will be assigned an advisor by the Chair of the Counselor Education Department and the completed file will be forwarded to the Graduate School.

Admission Criteria are as follows:

Unconditional Admission Status – Must satisfy one of the following:

- a. A minimum cumulative undergraduate grade point average of **2.85 (or 3.25 on the last 60 hours of undergraduate work) and a raw score of at least 30 or 380 scaled score on the MAT** or a minimum score of **286 on the combined verbal and quantitative sections of the GRE.**
- b. A minimum cumulative undergraduate grade point average of **2.75 (or 3.25 on the last 60 hours of undergraduate work) and a raw score of at least 35 or a 388 Scaled Score on the MAT** or a minimum score of **287 on the combined verbal and quantitative sections of the GRE.**

Conditional Admission Status – Must satisfy at least one of the following:

- a. A minimum cumulative undergraduate grade point average of **2.65 and a raw score of at least 30 or a Standard Score of 380 on the MAT** or a minimum score of **286 on the combined verbal and quantitative sections of the GRE.**
- b. A minimum cumulative undergraduate grade point average of **2.50 and a raw score of at least 33 or a standard score of 388 on the MAT** or a minimum score of **287 on the combined verbal and quantitative sections of the GRE.**
- c. Unconditional admission to the counseling program, a raw score of at least 30 or a standard score of 383 on the MAT or a minimum score of 287 on the combined verbal and quantitative sections of the GRE, and a minimum cumulative graduate grade point average 3.0 on 12 or more semester hours with no more than one course with a grade of “C.”
- d. Information on Millers Analogy Test (MAT) or the Graduate Record Examination can be found at <http://www.hsu.edu/testing>.
- e. *Passing Scores for Praxis are Core Reading 156; Core Writing 162; Core Math 150.*

Eligibility to Continue in the Counseling Program

Students admitted with Conditional status must earn a cumulative grade point average of at least 3.00 on the next twelve (12) hours of course requirements and have no more than one course in these twelve (12) hours with a grade of "C." Students who fail to remove Conditional status in this manner will be dropped from the Counseling Program.

Program Retention Checkpoints

Admission into the Department of Counselor Education does not guarantee graduation. Success in academic coursework is only one component of becoming a successful counseling student. The following nonacademic conditions may result in dismissal if they are observed to impair the student's ability to work with others in class, practicum or internship settings: one (1) personal concerns or psychopathology, two (2) interpersonal relationship issues and three (3) personal attitudes or value systems that conflict with effective counseling relationships.

Student Remediation/Dismissal Policy.

Each semester counselor education faculty will identify any students in their classes whom they think need special consideration by rating those students using the Personal Characteristics Evaluation Form. This form will be filed with the chairperson of counselor education. When a problem is identified (a rating below 3 on any of the criteria) the following three steps outline the monitoring and dismissal process:

- a. The student is presented in writing with a copy of the Personal Characteristics Evaluation Form and the professor's comments. A copy of the form is also presented to the counselor education department chair and forwarded to the evaluating faculty member, the student's advisor and the department chair for discussion. After the review process, the student and faculty advisor will meet to discuss the evaluation form and any recommended remediation deemed appropriate.
- b. If a student receives more than one "problem" rating (from two or more faculty) during any one semester or receives a form from more than one professor over any two semester time frame, the department chair of counselor education will be informed and the student will meet with his or her faculty advisor and a review committee to discuss remediation or possible reconsideration of his or her continuation in the counselor education program. A copy of the evaluation scale and any action taken will be given to the student and placed in his or her file.
- c. If a student receives three or more problem ratings during one semester, copies of the evaluation will be forwarded to the department chairperson and the student will then be required to meet with his or her advisor, the evaluating faculty member and the department for discussion and possible remediation/discontinuation in the counseling program. If this committee determines that the student's performance is inappropriate to the counseling field, and that such behaviors would be detrimental in working with others, the student will be denied continuance in the counselor education program.

If deemed appropriate by the program faculty, the following suggested remedial procedures could be required of the student:

- 1) Personal therapy
- 2) Group growth experiences
- 3) Self-structured behavioral change

- 4) Additional field experience
- 5) Additional course work
- 6) Other as seen necessary by the Program Faculty

DISMISSAL POLICY

Dismissal of a master's student will be subject to the following:

1. Dismissal criteria established by the Office of Graduate Studies.
2. Dismissal from the program occurs if any one of the following conditions exist:
 - A. three (3) final grades lower than 3.0 (B) OR
 - B. cumulative GPA falls below a 3.0 (B) GPA

Admission into the Department of Counselor Education does not guarantee graduation. Success in academic coursework is only one component of becoming a successful counseling student. The following nonacademic conditions may result in dismissal if they are observed to impair the student's ability to work with others in class, Practicum or Internship, settings:

1. Personal concerns or psychopathology
2. Interpersonal relationship issues
3. Personal attitudes or value systems that conflict with effective counseling relationships

Appeals Process Policy

The purpose of the appeal process is to secure, at the lowest possible level, an equitable solution to counselor education student issues with the Department of Counselor Education. Relevant issues include interpretation and execution of departmental policy, course offerings, grading, and other policy determined relevant by the Department Chair. It is desired that appeals be kept as informal as possible at each level of the appeals process. Appeals beyond the classroom professor will be considered solely on written appeal and any pertinent documents presented initially to the classroom professor.

Level 1: If the student has an issue with an assigned grade, the student will first contact the faculty member issuing the grade for an explanation or change in the grade. Please keep in mind that the faculty member has the authority and responsibility to determine the grade. In general, any issue the student has should first be discussed with the relevant departmental member. The student will explain the reasons for the appeal, and the appropriate department member will explain the reason(s) and basis for his or her decision.

Level 2: If the matter is not resolved to the student's satisfaction and the student wishes to pursue the matter further, the student must present the appeal in writing within five working days to the Counselor Education Department Chair. The appeal must be in writing, must fully state the student's position and argument, and must state specifically that this appeal process is being invoked. All appeals must be signed by the student. The Counselor Education Chair will respond within ten working days as to the decision and the reasons for that decision.

Level 3: If the student is not satisfied with the disposition of the appeal at Level 2, or if no decision has been rendered within ten working days after the presentation of the written appeal, the student must file a written appeal within five working days to the Dean of Teachers College,

Henderson. The decision of the Dean will be communicated to the student in writing within ten working days stating both the decision and the reasons.

Level 4: If the student is not satisfied with the disposition of the appeal at Level 3, or if no decision has been rendered within the prescribed ten working days after the appeal, the student may file a written appeal within five working days with the Academic Vice President, who is the Chief Academic Officer of the University. The Vice President for Academic Affairs will communicate the decision to the student in writing within ten working days and the decision of the Vice President will be final and binding on all parties.

For complete information concerning the Appeal Process, consult the current HSU Graduate Catalog. The HSU Graduate Catalog can be obtained free of charge from the HSU Office of Graduate Studies.

Semi-Annual Review

In addition to the academic standards for continuing enrollment, all students admitted to the Counseling Program will be subject to semi-annual review by the Program Faculty. This semi-annual review will be conducted by the Program Faculty during the fall and spring semesters. At this review, the Program Faculty will assess current evidence of each student's personal and interpersonal qualities deemed essential for effective counseling practice. The Program Faculty assesses overall quality of academic performance. Any student having earned more than one grade of "C" will come under scrutiny. The outcome of each review will be used for unrestricted continuation in the program; approval for continuation in the program with specified contingencies; suspension from the program with specified contingencies for readmission or removal from the program. This review is documented using the Professional Counseling Performance Evaluation (PCPE). A copy of the PCPE is in Appendix A.

Admission to Candidacy Policy

Students who have attained Unconditional Status and completed nine (9) to twelve (12) hours of required courses in the Counseling Program must file for candidacy status in compliance with the Graduate School policy.

Eligibility for Comprehensive Examination Policy

The following criteria must be met in order to take comprehensive exam:

- an overall graduate grade point average of 3.00
- have earned a cumulative grade point average of at least 3.00 on all courses completed in the counseling program
- are enrolled for their final period of study
- completed all required coursework prerequisite to the practicum will be eligible to sit for the comprehensive examination

Approval to Register for Clinical Courses Policy

Eligibility to enroll in Practicum is subject to approval of the students' academic advisor and the Clinical Director. To obtain this approval, a student must have successfully completed all prerequisites. Eligibility to enroll in Internship is contingent on a grade of "B" or better in Counseling Practicum, passage of comprehensive exam and an internship application must be

submitted by the due date to the Clinical Director and a satisfactory rating on the Hanna Rubric (see Clinical Handbook).

Internship Application Deadlines:

- Fall March 15th
- Spring July 15th
- Summer November 15th

Eligibility for Graduation Policy

The following criteria must be in order to receive a Master degree:

1. Earn a grade point average of 3.00 on these courses
2. Complete all courses required for the Counseling Program
3. Pass the comprehensive examination
4. School Counseling candidates must pass the Praxis II in School Counseling

Application for Graduation Policy

Due Date - The student will pick up the form in the Graduate School Office, Womack 210A or locate it on the webpage. Graduation Application Due Dates:

- May - due March 1st
- August - due June 15th
- December - due October 1st

CURRICULUM

A. Required Courses for ALL COUNSELING MAJORS (33 Semester Hrs.)

	CED 5033 Marriage Counseling and Family Systems
Available online	CED 5723 Assessment in Counseling
	CED 5713 Advanced Human Development
Available Online	CED 6043 Psychopathology
	CED 6733 Theories in Counseling
	CED 6743 Group Procedures
Available Online	CED 6953 Social & Cultural Foundations in Counseling
	CED 5753 Group Testing
Available Online	CED 6753 Career Counseling
	CED 6093 Pre Practicum
	CED 6673 Practicum

B. Additional Requirements for School Counseling Majors (15 Semester Hours)

Available Online	CED 6023 Professional School Counseling
Available Online	CED 6773 Case Management: School
	CED 6803 Counseling Internship: Elementary School (3 hours)
	CED 6813 Counseling Internship: Secondary School (3 Hours)
	CED 6063 Counseling Children and Adolescents/Intro to Play Therapy

C. Additional Requirements for Clinical Mental Health Counseling (15 Semester Hours)

Available Online	CED 6923 Counseling Ethics
Partial Online	CED 6013 Professional Clinical Mental Health Counseling
Available Online	CED 6583 Counseling & Substance Abuse
Available Online	CED 6683 Psychopharmacology
Available Online	CED 6793 Case Management: Clinical Mental Health Counseling
	CED 6826 Counseling Internship: Clinical Mental Health Counseling

Directed Elective Courses: (see listing below)

COUNSELING ELECTIVE COURSES:

Available Online	CED 5653 Family Counseling and Parent Education.
	CED 6053 Special Problems in Counselor Education
Available Online	CED 6583 Counseling & Substance Abuse (Elective for School majors)
	CED 6633 Counseling Supervision
Available Online	CED 6643 Sex Counseling
Available Online	CED 6683 Psychopharmacology (Elective for School Counseling majors)
	CED 6913 Advanced Counseling Techniques
Available Online	CED 6923 Counseling Ethics (Elective for School Counseling)
	CED 6963 Personality Assessment
	CED 6973 Personality Dynamics
	CED 6983 Seminar in Counseling

PREREQUISITE ORDER:

1. CED 6013 Professional Clinical Mental Health Counseling or CED 6023 Professional School Counseling
2. CED 6733 Theories of Counseling
3. CED 6093 Pre Practicum
4. CED 6743 Group Procedures
5. CED 6673 Practicum
6. Internship
 - a. CED 6803 Counseling Internship: Elementary School
 - b. CED 6813 Counseling Internship: Secondary School
 - c. CED 6823 Counseling Internship: Clinical Mental Health Counseling

MASTER OF SCIENCE IN EDUCATION IN SPECIAL EDUCATION K-12

Our Mission

The mission of the Master of Science in Education in Special Education is to prepare reflective and compassionate teachers to instruct students with exceptionalities in grades kindergarten through 12. This program exists to develop well-informed educators who understand the educational needs of students with exceptionalities, command 21st century pedagogical skills, use varied and appropriate technology to communicate effectively with students with exceptionalities, value the differences their students bring to the classroom, and adhere to and model the high moral and ethical professional standards of the Council for Exceptional Children (CEC).

Description

Henderson State University's Master of Science in Education in Special Education is Nationally Recognized by the Council for Exceptional Children and provides a course of study that enables teachers to add an Arkansas Special Education (K-12) Teaching License. The major goals of the MSE in Special Education are aligned to the CEC Initial Level Special Educator Preparation Standards. Upon completion of the program, graduate candidates are expected to demonstrate the knowledge, skills, and dispositions delineated in the following standards:

CEC Initial Level Special Educator Preparation Standards 2012

- 1.0 Beginning special education professionals understand how exceptionalities can interact with development and learning and use this knowledge to provide meaningful and challenging learning experiences for individuals with exceptionalities.
- 2.0 Beginning special education professionals create safe, inclusive, culturally responsive learning environments so that individuals with exceptionalities become active and effective learners and develop emotional well-being, positive social interactions, and self-determination.
- 3.0 Beginning special education professionals use knowledge of general and specialized curricula to individualize learning for individuals with exceptionalities.
- 4.0 Beginning special education professionals use multiple methods of assessment and data-sources in making educational decisions.
- 5.0 Beginning special education professionals select, adapt, and use a repertoire of evidence-based instructional strategies to advance learning of individuals with exceptionalities.
- 6.0 Beginning special education professionals use foundational knowledge of the field and the their professional Ethical Principles and Practice Standards to inform

special education practice, to engage in lifelong learning, and to advance the profession.

- 7.0 Beginning special education professionals collaborate with families, other educators, related service providers, individuals with exceptionalities, and personnel from community agencies in culturally responsive ways to address the needs of individuals with exceptionalities across a range of learning experiences.

Council for Exceptional Children (2012). *CEC Initial Level Special Educator Preparation Standards*. Retrieved from <https://www.cec.sped.org/~media/Files/Standards/Professional%20Preparation%20Standards/Initial%20Preparation%20Standards%20with%20Elaborations.pdf>

Special Education Vision

We strongly believe that every student with an exceptionality has the legal and moral right to be educated by professionals who value individual uniqueness and will provide the student with instruction that leads to his or her maximum potential to become a valued and productive member of his or her school and community. This vision requires individualized learning experiences and instructional efforts that span many contexts, from the home environment to a variety of school and community settings. Thus, all educators who instruct individuals with exceptionalities, not just special education teachers, must be knowledgeable professionals, who possess sound pedagogical skills, and who are willing and able to instruct individuals with exceptionalities in a compassionate manner. There is a shared expectation among the special education faculty members that all special education candidates will adhere to the CEC's Special Education Professional Ethical Principles.

Professional special educators are guided by the CEC professional ethical principles, practice standards, and professional policies in ways that respect the diverse characteristics and needs of individuals with exceptionalities and their families. They are committed to upholding and advancing the following principles:

1. Maintaining challenging expectations for individuals with exceptionalities to develop the highest possible learning outcomes and quality of life potential in ways that respect their dignity, culture, language, and background.
2. Maintaining a high level of professional competence and integrity and exercising professional judgment to benefit individuals with exceptionalities and their families.
3. Promoting meaningful and inclusive participation of individuals with exceptionalities in their schools and communities.
4. Practicing collegially with others who are providing services to individuals with exceptionalities.
5. Developing relationships with families based on mutual respect and actively involving families and individuals with exceptionalities in educational decision making.
6. Using evidence, instructional data, research, and professional knowledge to inform practice.

7. Protecting and supporting the physical and psychological safety of individuals with exceptionalities. Neither engaging in nor tolerating any practice that harms individuals with exceptionalities.
8. Practicing within the professional ethics, standards, and policies of CEC; upholding laws, regulations, and policies that influence professional practice; and advocating improvements in the laws, regulations, and policies.
9. Advocating for professional conditions and resources that will improve learning outcomes of individuals with exceptionalities.
10. Engaging in the improvement of the profession through active participation in professional organizations.
11. Participating in the growth and dissemination of professional knowledge and skills.

Council for Exceptional Children (2010). *Special Education Professional Ethical Principles*. Retrieved from <https://www.cec.sped.org/Standards/Ethical-Principles-and-Practice-Standards>

Admission to Candidacy Requirements

In addition to the admissions requirements to HSU's Graduate School (see Admissions to Graduate Studies in this catalog) the Master of Science in Education in Special Education requires the following:

1. Evidence of the possession of a standard Arkansas teaching license.
2. Current resume
3. Signed Release of Information Form
4. Initial formal interview with a special education faculty member. After the interview, the candidate, in consultation with the advisor, will submit a degree plan to the graduate office.

Required Coursework for an MSE in Special Education (K-12)

The MSE in Special Education requires 33 hours graduate course work. There is a 6 hour transfer limit for candidates who have taken similar courses at other institutions. Transfer credit is accepted at the discretion of special education faculty advisors.

Required Courses:

EDU 6413	Introduction to Research
SPE 5403	Assessment and Programming
SPE 6313	Special Education Law
SPE 6323	Behavior Management
SPE 5103	Advanced Methods of Instructing Students with Mild/Moderate Disabilities
SPE 5393	Advanced Methods of Instructing Students with Severe to Profound Disabilities
SPE 5213	Introduction to Autism Spectrum Disorder
SPE 6423	Practicum for Teaching Students with Disabilities K-6
SPE 6433	Practicum for Teaching Students with Disabilities 7-12
SPE 6273	Research Problems
Elective Approved by Advisor (3 hours)	

Exit Requirements

In addition to the satisfactory completion of the program of study, candidates must meet the following exit requirements to obtain a Master of Science in Education in Special Education.

1. The candidate must pass the state required Praxis II test for Special Education Licensure.
2. Candidates will successfully demonstrate performances that align with current CEC standards and the CEC Code of Ethics during an Exit presentation. A committee of special education faculty members will assess the candidate's performance on the Exit presentation.

MASTER OF SCIENCE IN EDUCATION IN ADVANCED INSTRUCTIONAL STUDIES

Mission

The mission of the Master of Education in Advanced Instructional Studies is to enable teachers to develop expertise in specific content areas, to model effective 21st Century pedagogical skills, to use varied and appropriate media to communicate effectively with diverse audiences, and to promote high moral and ethical professional standards and dispositions.

Description

The program consists of 36 credit hours. Half of the courses (18 hours) come from the AIS Core. The remaining 18 hours come from the candidate's area of specialization. Specialization areas include:

Early Childhood Education
English
English as a Second Language
Instructional Facilitator
Interdisciplinary Studies
Mathematics
Physical Education

Specialization programs in the following areas are currently being developed. For more information on the status of any of these specialty areas contact the Coordinator of the Master of Education in Advanced Instructional Studies.

Dyslexia Therapy (Anticipated Fall 2015 or Spring 2016)
STEM (Science, Technology, Engineering, and Mathematics) (Anticipated Spring 2016)
Technology Education (Anticipated Fall 2016)
Literacy Intervention (Anticipated Fall 2016)

Field experiences and educational research are integral components of this degree. Candidates must work with students in the role of a teacher in order to complete field experience assignments that are required in selected courses. Introduction to Research and Action Research Practicum provide candidates with the background to understand, interpret, and conduct research that will have a positive impact on student learning.

Admission Policy and Procedures

Candidates must first be admitted to the Graduate School. The following items are required for admission into the Graduate School:

1. A bachelor's degree from an accredited institution.
2. Possession of a standard teacher's license.
3. An overall undergraduate grade point average of 2.70 (2.50 conditional).
4. Current resume
5. Submission of the following to the Dean of the Graduate School:
 - completed application and immunization form with \$25 non-refundable fee
 - official transcripts from all universities attended

More detailed information on this process can be found in this catalog under Admissions to Graduate Study.

Second, candidates must be admitted into the Master of Science in Education in Advanced Instructional Studies program. After completing 9 to 12 hours of course work, candidates will be interviewed by two educators. Candidates who recently completed a BSE from Henderson may use their Exit interview results in place of the admissions interview. After the interview, the candidates, in consultation with their advisor, will submit a degree plan to the graduate office.

Curriculum Outline

AIS Core (18 hours)

EDU 6413	Introduction to Research
EDU 6633	Curriculum Construction K – 12
SPE 5103	Adv. Methods of Instructing Students with Mild/Moderate Disabilities
EDU 6813	Educational Law for Teachers*
EDU 6663	Advanced Child/Adolescent Growth and Development
EDU 6553	Action Research Practicum

*The MSE in Advanced Instructional Studies requires 3 graduate hours of educational law. With advisor approval, candidates may substitute EDL 6453, HPR 6683, or SPE 6313 for EDU 6813.

Electives

Depending on their area of specialization, candidates may take one or two electives to complete a program of study. Electives must be selected from graduate level courses only. Options for electives may come from many Teachers College courses that begin with the following prefixes: CED, EDL, EDE, EDU, HPR, RDG, or SPE. However, other course options from outside Teachers College may be considered. All electives must be approved by the candidate's academic advisor.

Specialty Requirements

Early Childhood Education (Ages 3 – 4)

The specialty in Early Childhood Education is designed to provide Elementary Education K-6 licensed teachers with the knowledge, competencies, and field experiences necessary to effectively serve the educational needs of 3 and 4 year-old students.

3-4 Endorsement Requirements. To add an Age 3-4 Endorsement, candidates must successfully complete the specialty courses (or their undergraduate equivalents) and pass the required Praxis II Test. The 3-4 Endorsement is available to candidates possessing an Elementary Education K-6 license.

It is anticipated that this specialty area will begin in the spring of 2016.

SPE 6353 Advanced Studies in Early Childhood Special Education
EDU 6303 School and Community Relations
RDG 6153 Developmental Reading
EDE 5573 Early Childhood Curriculum
EDE 6703 Practicum Early Childhood
Three hours of advisor approved electives required.

English

The specialty in English consists of 18 hours and provides advanced professional instruction in the literature of the Western tradition and in the English language. The program is designed to prepare the candidate for teaching at the college level or for pursuit of doctoral study in English. More specifically, the program is structured to ensure that the candidate has the opportunity to develop the following:

- A broad knowledge of English, American, and world literary history;
- The interpretative and evaluative skills necessary for a relatively sophisticated understanding and appreciation of literary texts as works of art;
- The knowledge and skill necessary to conduct critical research and articulate the results of such research in appropriate form;
- The pedagogical skills necessary to communicate mastery of language and literature effectively.

Candidates in this specialty will have advisors from the Department of Advanced Instructional Studies and Educational Leadership and the Department of English, Foreign Languages, and Philosophy.

English as a Second Language

The specialty in English as a Second Language is designed to provide candidates with the knowledge, skills, and dispositions needed to effectively teach students whose first language is not English.

ESL Endorsement Requirements. Candidates who successfully complete the following courses or their undergraduate equivalent and pass the required Praxis II Test are eligible for an Arkansas Teaching Endorsement in English as a Second Language.

EDU 5483 Acquisition of English as a Second Language
EDU 5533 Methods and Materials for Teaching Limited English Proficient Students
EDU 5543 Teaching People of Other Cultures
EDU 5603 Second Language Assessment
Six hours of advisor approved electives required.

Instructional Facilitator (15 hours)

The specialty in Instructional Facilitator is designed to prepare quality teachers to oversee the process of instruction in their buildings in the areas of literacy, math, and science.

- EDL 6213 Organizational Leadership
 - EDL 6223 Supervision and Educational Leadership
 - EDL 6623 Curriculum Strategies for Instructional Leaders
 - EDL 6633 Curriculum Alignment and Assessment
 - EDL 6693 Technology for School Leaders
- Three hours of advisor approved electives required.

Interdisciplinary Studies

The specialty in Interdisciplinary Studies involves an individualized plan of study that the candidate and the candidate's advisor construct. Contact the Coordinator of the Master of Education in Advanced Instructional Studies for information on this specialty.

Mathematics

The specialty in Mathematics consists of 18 hours and is designed for secondary mathematics teachers who wish to expand their mathematics knowledge and/or teach mathematics at the college level. Candidates in this specialty will have advisors from the Department of Advanced Instructional Studies and Educational Leadership and the Department of Mathematics and Computer Science.

Physical Education

The specialty in Physical Education consists of 18 hours and is designed for physical education teachers who wish to expand their knowledge of physical education, wellness, and leisure or to teach physical education at the college level. Candidates in this specialty will have advisors from the Department of Advanced Instructional Studies and Health, Physical Education, Recreation, and Athletic Training.

- HPR 6683 Legal Aspects of Sports and Leisure Activity Management*
- HPR 6543 Facility Planning and Management
- HPR 6373 Sport Event Planning and Fundraising
- HPR 6513 Organizational Behavior and Leadership in Sport

Nine hours of advisor approved electives are required. Six of the hours must be HPR courses.

*HPR 6683 will replace EDU 6813 from the AIS Core.

Exit Guidelines:

1. The candidate must meet all exit requirements for master level programs as stated in the current HSU Graduate Catalog.
2. During the course, EDU 6553 Action Research Practicum, the candidate, in consultation with the course instructor, selects an appropriate topic for an action research project. The final copy of the project will be maintained in the department for a minimum of three years.

3. A major component of the course EDU 6553 Action Research Practicum is the Exit presentation. During the Exit, the candidate will demonstrate active involvement as an educational professional. The Exit will not take place until the Action Research Practicum instructor has approved the candidate's action research project report.
4. An Exit Evaluation Committee will evaluate the candidate's presentation using a scoring rubric. The committee will be composed of two to four members of the graduate faculty and/or licensed educators. The candidate's faculty advisor will serve as the committee chair. During the Exit, the candidate will demonstrate competency in meeting the rubric standards with the aid of artifacts and a digital presentation.
5. The faculty advisor will notify the candidate by a letter or e-mail indicating successful or non-successful completion of the program of study. A copy of the letter or e-mail will be sent to the Graduate School.

MASTER OF SCIENCE IN EDUCATION: EDUCATIONAL LEADERSHIP

The HSU Master of Science in Education (M.S.E.) in educational leadership and technology as well as building level leader and curriculum program administrator programs of study, through continuous commitment to exemplary teaching, leadership, research and service, produce effective educational leaders dedicated to education and outstanding candidate performance. Academic standards are evident in each program component and highly qualified professors of educational leadership facilitate the learning process. The admissions procedure requires the candidate to carefully defend the desire to be a school leader as well as to examine personal motivations and potential through a written and oral application process.

The programs are driven by standards and research delivered through courses aligned to the Interstate School Leaders Licensure Consortium (ISLLC), the Educational Leadership Constituent Council (ELCC) and the International Society for Technology in Education (ISTE). Students gain knowledge, skills, and dispositions necessary to be productive and successful school leaders.

The Educational Leadership Department supports the Teachers College mission by focusing on communication, professionalism, knowledge and best practices. The department also focuses on the following dispositions:

1. Valuing diversity
2. Fairness to all
3. Having a sense of efficacy
4. Being reflective learners
5. Emphasizing professionalism

Mission Statement:

The HSU Educational Leadership MSE program prepares candidates for P-12 building level leadership and curriculum administrator roles and empowers them to work collaboratively with diverse populations. Our stakeholders include parents, community, civic organizations, business, media, teachers, and students. The program is designed to improve the leader's skills in impacting student achievement and the quality of life for students through excellence in teaching, learning, service, technology, and leadership.

3 Goals:

1. **Knowledge:** To graduate candidates with the knowledge necessary to pass the building level leader licensure examination (SLLA) and to succeed as a building level administrator.
2. **Skills/Applications:** To graduate candidates with the necessary leadership skills and applications to succeed as a building level administrator.
3. **Collaboration:** To graduate building level leaders with the ability to work collaboratively with all stakeholders of a school district.

Knowledge

Educational Leadership candidates will demonstrate their knowledge and mastery of educational leadership ISLLC and ELCC Standards to promote the success of every student by:

1. Facilitating the development, articulation, implementation, and stewardship of a school or district vision of learning that is shared and supported by all stakeholders.
2. Advocating, nurturing, and sustaining a school culture and instructional program conducive to student learning and staff professional growth.
3. Ensuring management of the organization, operations, and resources for a safe, efficient and effective learning environment.
4. Collaborating with faculty and community members, responding to diverse community interests and needs, and mobilizing community resources.
5. Acting with integrity, fairly, and in an ethical manner.
6. Understanding, responding to, and influencing the larger political, social, economic, legal, and cultural context.

Measure 1: SLLA

Measure 2: Exit Portfolio

Skills

Candidates will develop leadership skills through the learning opportunities and field experiences provided them by the department. Educational Leadership students will demonstrate their skills and application of educational leadership ELCC Standards to promote the success of all students by:

1. Promoting a positive school culture, providing an effective instructional program, applying best practice to student learning, and designing comprehensive professional growth plans for staff.
2. Managing the organization, operations, and resources in a way that promotes a safe, efficient and effective learning environment.
3. Acting with integrity, fairly, and in an ethical manner.
4. Understanding, responding to, and influencing the larger political, social, economic, legal, and cultural context.

Measure 1: Leadership Impacting Student Achievement-Action Research Project

Measure 2: Learner Centered Schedule

Collaboration

Candidates will attain knowledge of methods of collaboration through the learning opportunities provided them by the department. They will apply this knowledge and develop skills of collaboration through field based opportunities. This knowledge and these skills demonstrate the ISLLC/ELCC standards that promote the success of all students by:

ISLLC Standards:

1. Facilitating the development, articulation, implementation, and stewardship of a school or district vision of learning that is shared and supported by all stakeholders.
2. Collaborating with faculty and community members, responding to diverse community interests and needs, and mobilizing community resources.

ELCC Standards:

1. Facilitating the development, articulation, implementation, and stewardship of a school or district vision of learning supported by the school community.
2. Collaborating with families and other community members, responding to diverse community interests and needs, and mobilizing community resources.
3. Participating in a field based internship which provides significant opportunities for candidates to synthesize and apply their knowledge and practice and develop their skills through substantial, sustained, standards-based work in real settings, planned and guided cooperatively by the institution and school district personnel for graduate credit.

Measure 1: Professional Learning Community Assessment

Measure 2: Survey for Systematic Planning for School Improvement

Measure 3: Internship Portfolio Review Assessment

The students will also focus on the five NETS-A standards in all courses. These standards are:

1. Visionary Leadership;
2. Digital-Age Learning and Culture;
3. Excellence in Professional Practice;
4. Systemic Involvement;
5. Digital Citizenship.

Mastery and understanding of these standards will be included as a section in the Exit Portfolio.

Admission policy and procedures

The following are required for admission:

1. A bachelor's degree from an accredited institution.
2. Possession of a standard teacher's license.
3. Three years of experience as a licensed public school classroom teacher at the desired level of administrative licensure is recommended. Four years of teaching experience (three of five in the area or level at which administrative licensure is required for licensure).
4. An overall undergraduate grade point average of 2.70 (2.50 conditional)
5. Submission of the following to the Dean of the Graduate School:
 - completed application and immunization form with \$25 non-refundable fee;
 - official transcripts from all universities attended;

The Dean of the Graduate School reviews submitted materials for completeness and sends a status letter to the candidate with a copy to the coordinator of the Educational Leadership program.

An interview with an admission committee composed of faculty from Educational Leadership at HSU will be conducted during the fall or spring orientation for new candidates. Following the interview process, the candidate's advisor will notify the Graduate Dean of the candidate's

status. A recommended graduation plan (candidacy form) will also be filled out during the orientation and sent to the graduate office upon completion of six hours.

The Graduate Dean will notify the candidate in writing of his/her program status.

EXIT EVALUATION PROCEDURES

1. The Exit Evaluation Committee is composed of the faculty advisor serving as chair of the committee, one faculty member from the Educational Leadership program, and the candidate's mentor.
2. The candidate will present an electronic exit portfolio presentation which exhibits mastery of the ELCC, ISLLC and NETS-A standards to the Exit Evaluation Committee.
3. The Exit Evaluation Committee will use rubrics based on the ISLLC standards, the ELCC standards and the NETS-A standards to evaluate the candidate's electronic exit portfolio as the candidate presents the portfolio. (See portfolio section below).
4. The candidate will upload artifacts from the exit portfolio to TK20 the Teachers College accountability system. An average of scores from the electronic presentation will be placed on TK20.
5. The faculty advisor will send to the candidate, Coordinator of the Educational Leadership Program, and the Dean of the Graduate School a letter indicating successful completion of the program of study, portfolio defense and internship. This information will also be placed in the candidate's Graduate School file.
6. Candidates will also report their findings for their action research project that will be introduced in the orientation session.

Master of Science in Education in Educational Leadership- 30 hours

The MSE in Educational Leadership consists of 30 credit hours. All courses address particular competencies required by the Interstate School Leaders Licensure Consortium (ISLLC), National Council for the Accreditation of Teacher Education (NCATE), and the National Education Technology Standards for Administrators (NETS-A).

Courses Required for the MSE in Educational Leadership

EDL 6123	Research for Educational Practitioners
EDL 6623	Curriculum Strategies for Educational Leaders
EDL 6213	Organizational Leadership
EDL 6223	Supervision and Educational Leadership
EDL 6333	School Finance and Resource Management
EDL 6343	School / Community Resources and Relationships
EDL 6453	Educational Law and Political Systems
SPE 6313	Special Education Law
EDL 6693	Technology for School Leaders
EDL 6533	Principal Internship P-12 (with 217 Internship Hours)

Total 30 hours for MSE degree

Master of Science in Education in Technology- 30 hours

The MSE in Technology consists of 30 credit hours. All courses address particular competencies required by the Interstate School Leaders Licensure Consortium (ISLLC), National Council for

the Accreditation of Teacher Education (NCATE), and the National Education Technology Standards for Administrators (NETS-A).

Courses Required for the MSE in Technology

EDL 6123 Research for Educational Practitioners
EDL 6333 School Finance and Resource Management
EDL 6453 Educational Law and Political Systems
EDL 6623 Curriculum Strategies for Educational Leaders
EDL 6693 Technology for School Leaders
EDL 7713 Technology for Communication
EDL 7703 Integrating Technology into the Instructional Program
EDL 7723 Technology for District Administrators
EDL 6553 21st Century Technology
EDL 7473 Leadership for Curriculum and Instruction

Total 30 hours

Total 15 hours

Internship

The internship experience in all programs is based on the Standards for Licensure of Beginning Administrators and meets the ELCC standard 7 requirements. Experiences address the ISLLC and ELCC standards. Projects, activities and the internship will be completed in the area of specialization and in concert with a licensed public school mentor and university professor in the area of specialization.

PORTFOLIO REQUIREMENTS AND PROCEDURES

Candidates enrolled in the MSE degree program and programs of study for building level leader and curriculum program administrator are required to maintain a professional portfolio throughout their course of study. Artifacts and reflections for the portfolio will be placed on Tk20. This portfolio will be presented electronically at the completion of their program to demonstrate mastery of the ISLLC, ELCC and NETS-A standards.

The program portfolio is maintained and continuously updated by the candidate throughout the program. The university advisor who is a professor in the area of specialization oversees the portfolio process and ensures that this working document is comprehensive, detailed and revised as new knowledge and skills are introduced. Organization of the program portfolio includes a variety of artifacts from course assignments which document successful understanding of goals and objectives of the HSU educational leadership program of study as well as the area of specialization and are aligned to the ISLLC, ELCC and NETS-A standards. Following a review by the candidate's advisor, the candidate presents the portfolio to the Educational Leadership Exit Review Committee in a formal presentation, which includes the candidate's reflection on learning throughout the program, as well as the opportunity for committee members to request additional information and clarification of the candidate's understanding of the information presented.

Exit Requirements

The Educational Leadership Exit Review Committee is comprised of the candidate's EDL program advisor from the area of specialization, an EDL faculty member, and the public school mentor from the candidate's internship site. Members of the Committee carefully view the candidate's portfolio, as well as oral and written presentation, rating the candidate's performance on a rubric aligned to the program outcomes.

During this exit process, the candidate will also present findings of the action research project that is introduced in the first formal course and completed at the end of the program.

State Licensure Exam

All candidates seeking Building Level or Curriculum/Program Administrator licensure in Arkansas will take the School Leaders Licensure Assessment (SLLA). The SLLA is based upon the acquisition of knowledge and skills necessary for successful leadership at the building level which is meshed in all course work in the MSE programs. It is recommended that the candidate take the Assessment after the internship semester. The candidate must attain the Arkansas established cut score to qualify for licensure.

Instructional Facilitator Program of Study

In spring 2010, the Arkansas Department of Education approved Henderson State University to offer a 15 hour credit plan to address the needs of an Instructional Facilitator. Presently, this program does not culminate in a license.

The following courses are required for this program of study:

EDL 6213 Organizational Leadership
EDL 6223 Supervision and Education Leadership
EDL 6623 Curriculum Strategies for Instructional Leaders
EDL 6633 Curriculum Alignment and Assessment
EDL 6693 Technology for School Leaders

Total: 15 hours

EDUCATIONAL SPECIALIST (Ed.S.)

Superintendent- online

Curriculum Leadership- online

To ensure that graduate students preparing for senior level educational administration positions or superintendency have the opportunity to gain knowledge and skills and dispositions necessary to be productive and successful school leaders, Henderson is committed to the development and delivery of an exemplary post master's degree program in educational leadership. In order to meet the needs of a diverse and wide-spread cohort of candidates, the Henderson Ed. Specialist program is offered fully online via Blackboard Collaborate, using an internet/webcam delivery system.

The Educational Leadership Department supports the Teachers College mission by focusing on communication, professionalism, knowledge and best practices. The department also focuses on the following dispositions:

1. Valuing diversity
2. Fairness to all
3. Having a sense of efficacy
4. Being reflective learners
5. Emphasizing professionalism

The Henderson State University Educational Leadership program offers an Educational Specialist in District Leadership (Ed.S.) that prepares graduate students for superintendent licensure.

The degree and the program of study driven by standards are delivered through online courses aligned to the Interstate School Leaders Licensure Consortium (ISLLC), the Educational Leadership Constituent Council (ELCC) and the International Society for Technology in Education (ISTE).

Mission Statement:

The HSU Educational Leadership Educational Specialist program prepares candidates for P-12 district level leadership roles and empowers them to work collaboratively with diverse populations. Our stakeholders include parents, community, civic organizations, business, media, teachers, and students. The program is designed to improve the leader's skills in impacting student achievement and the quality of life for students through excellence in teaching, learning, service, technology, and leadership.

3 Goals:

1. **Knowledge:** To graduate candidates with the knowledge necessary to pass the superintendent licensure examination (SSA) and to succeed as a district level administrator.
2. **Skills/Applications:** To graduate candidates with the necessary leadership skills/application to succeed as a district level administrator.
3. **Collaboration:** To graduate district level leaders with the ability to work collaboratively with all stakeholders of a school district.

Knowledge

Educational Leadership candidates will demonstrate their knowledge and mastery of educational leadership ISLLC Standards to promote the success of every student by:

1. Facilitating the development, articulation, implementation, and stewardship of a school or district vision of learning that is shared and supported by all stakeholders.
2. Advocating, nurturing, and sustaining a school culture and instructional program conducive to student learning and staff professional growth.
3. Ensuring management of the organization, operations, and resources for a safe, efficient and effective learning environment.
4. Collaborating with faculty and community members, responding to diverse community interests and needs, and mobilizing community resources.
5. Acting with integrity, fairly, and in an ethical manner.
6. Understanding, responding to, and influencing the larger political, social, economic, legal, and cultural context.

Measure 1: SSA

Measure 2: Exit Portfolio

Skills

Candidates will develop leadership skills through the learning opportunities and field experiences provided them by the department. Educational Leadership students will demonstrate their skills and application of educational leadership ELCC Standards to promote the success of all students by:

1. Promoting a positive school culture, providing an effective instructional program, applying best practice to student learning, and designing comprehensive professional growth plans for staff.
2. Managing the organization, operations, and resources in a way that promotes a safe, efficient and effective learning environment.
3. Acting with integrity, fairly, and in an ethical manner.
4. Understanding, responding to, and influencing the larger political, social, economic, legal, and cultural context.

Measure 1: Leadership Impacting Student Achievement-Action Research Project

Measure 2: District Financial Analysis

Measure 3: Educational Software Evaluation – Field Project

Measure 4: “Mock” Building Project

Collaboration

Candidates will attain knowledge of methods of collaboration through the learning opportunities provided them by the department. They will apply this knowledge and develop skills of collaboration through field based opportunities. This knowledge and these skills demonstrate the ISLLC and ELCC standards that promote the success of all students by:

ISLLC Standards:

1. Facilitating the development, articulation, implementation, and stewardship of a school or district vision of learning that is shared and supported by all stakeholders.
2. Collaborating with faculty and community members, responding to diverse community interests and needs, and mobilizing community resources.

ELCC Standards:

1. Facilitating the development, articulation, implementation, and stewardship of a school or district vision of learning supported by the school community.
2. Collaborating with families and other community members, responding to diverse community interests and needs, and mobilizing community resources.
3. Participating in a field based internship which provides significant opportunities for candidates to synthesize and apply their knowledge and practice and develop their skills through substantial, sustained, standards-based work in real settings, planned and guided cooperatively by the institution and school district personnel for graduate credit.

Measure 1: Professional Development Needs Assessment

Measure 2: Mentorship Portfolio Review Assessment

The candidates will also focus on the five NETS-A standards in all courses. These standards are:

1. Visionary Leadership;
2. Digital-Age Learning and Culture;
3. Excellence in Professional Practice;
4. Systemic Involvement;
5. Digital Citizenship.

Mastery and understanding of these standards will be included as a section in the Exit Portfolio.

Admission policy and procedure

The Graduate School will receive the admission packet which requires: completed Henderson State University Graduate School application including immunization and selective service status forms.

1. Master's degree in educational leadership or in a related discipline from an accredited institution as verified by official transcript.
2. Current administrator's license.
3. Official copies of all transcripts with a 3.20 grade point average on all master's level coursework is required for full admission. Candidates with a GPA of 3.00 but less than 3.20 on all master's level coursework must submit a minimum score of 950 on the

Graduate Record Examination (GRE) or a minimum score of 400 on the Miller Analogies Test (MAT) during the first semester of enrollment.

4. Five (5) years of teaching experience at an accredited P-12 school district as documented by ATRS records or letters from superintendents.

When the admissions file is complete, the Graduate School will notify the candidate, Ed.S. coordinator and Teachers College, Henderson Associate Dean in writing. A copy of the file will be sent to the Ed.S. coordinator for the purpose of scheduling the admission interview. Results of the entrance interview will be filed in the student's file and also sent to the graduate office.

Transfer

Candidates wishing to transfer to the Henderson Ed.S. program from another accredited Ed.S. program may make application as outlined above. Transfer credit will be considered on an individual basis. Six hours maximum may be transferred toward an Ed. Sp. Degree.

EXIT EVALUATION PROCEDURES

1. The Exit Evaluation Committee is composed of the faculty advisor serving as chair of the committee, one faculty member from the Educational Leadership program, and the candidate's mentor.
2. The candidate will present an electronic exit portfolio presentation which exhibits mastery of the ELCC, ISLLC and NETS-A standards to the Exit Evaluation Committee.
3. The Exit Evaluation Committee will use rubrics based on the ISLLC standards, the ELCC standards and the NETS-A standards to evaluate the candidate's electronic exit portfolio as the candidate presents the portfolio. (See portfolio section below).
4. The candidate will upload artifacts from the exit portfolio to TK20 the Teachers College accountability system. An average of scores from the electronic presentation will be placed on TK20.
5. The faculty advisor will send to the candidate, Coordinator of the Educational Leadership Program, and the Dean of the Graduate School a letter indicating successful completion of the program of study, portfolio defense and internship. This information will also be placed in the candidate's Graduate School file.

Thesis

A scholarship research paper based on active research is required for the completion of the educational specialist degree. The topic will be approved by the professor of record. Completion is in collaboration with an approved public school administrator mentor plus faculty support in technological reporting and statistical research. The thesis must be presented and defended in a formal meeting. The defense committee will consist of the professor of record, the Coordinator of the Education Leadership Program.

Portfolio

The Ed.S. portfolio will be a continual compilation demonstrating a composite of learning related to the Educational Leadership Constituent Council (ELCC) & Interstate School Leaders Licensure Consortium (ISLLC) standards and the National Education Technology for Administrators (NETS-A)

Time Limit

The Ed.S. degree must be completed within six (6) years of date of admission. Any extension must be approved by the Ed.S. Coordinator as well as the Graduate School Dean according to the policies of the Graduate Council.

Core course requirements for an Ed.S. Superintendent Degree, Ed.S. in Curriculum Leadership and Program of Study

Ed.S. CORE COURSES

- EDL 7113 Executive Leadership
- EDL 7123 Organizational Management
- EDL 7723 Technology for District Administrators
- EDL 7363 Governance and Politics
- EDL 7483 Human Resources and Accountability
- EDL 7593 Fiscal Resources and Accountability
- EDL 7233 Advanced Research Methods
- EDL 7613 Mentorship in Educational Leadership
(with 217+ internship hours)

Total 24 Hours (Program of Study)

To complete the requirements for the Ed.S. Superintendent degree, candidates must take 6 additional hours from the courses listed below. Candidates must select 1 curriculum and 1 technology

- EDL 7473 Leadership for Curriculum & Instruction
- EDL 7703 Integrating Technology
- EDL 7713 Technology for Communication
- EDL 7633 Curriculum Alignment & Assessment

Total 30 Hours (Ed.S. degree for Superintendent)

To complete the requirements for the Ed.S. in Curriculum Leadership degree, candidates must take the remaining 15 hours that are listed below.

CURRICULUM COURSES

- EDL 7703 Integrating Technology
- EDL 7633 Curriculum Alignment and Assessment
- EDL 7473 Leaders for Curriculum
- EDL 7273 Program Improvement and Design
- EDL 7613 Mentorship in Educational Leadership
(with 217+ internship hours)

Total 30 hours Ed. Specialist Degree in Curriculum Leadership

ELLIS COLLEGE OF ARTS AND SCIENCES

Description of Courses

Anthropology

ANT 5053 World Cultures A worldwide survey of traditional Non-Western cultures, from small scale foragers and farmers to socially complex Non-Europeans of the recent past and present.

ANT 5083 Readings and Research in Anthropology Designed for individuals at the graduate level to conduct independent reading and research into selected topics of problem areas in any of the sub-fields of anthropology.

Art

ART 5093 Experimental and Contemporary Media Investigation and use of experimental and contemporary materials and concepts in the development of two and three dimensional forms. Graduate Students will explore a variety of media and forms and complete, with the input of the instructor, a final project and written artist's statement.

ART 5233 History of American Art A study of the evolution of the art of the United States from colonial times to the present with emphasis on painting, sculpture, and architecture. Influence of our European heritage and the distinctly American environment: physical, social, and philosophical. Slides, movies, lectures, and discussions.

ART 5283 Kiln Construction An advanced course in the design and construction of ceramic kilns.

ART 5293 Contemporary Art A seminar with an "in-depth" study of the trends in contemporary art. Slides, movies, lectures, and discussions that will aid students in familiarizing themselves with current artistic expression and the artists working in today's art world.

ART 5763 Lighting Techniques for Photography A hands-on course designed to thoroughly acquaint students with the specialized operations of photographic lighting equipment. The class will consist of demonstrations, discussions and class participation to give students the technical mastery needed to use metering and lighting equipment.

ART 5773 Alternative Printing Techniques The manipulation and extension of boundaries of traditional photography using solORIZATION, appropriation, montage, toning, bleaching and alternative emulsions.

ART 5783 History of Photography A slide and lecture course examining the important developments in Photography since 1839. This course examines photographic representation and image makers as well as the larger cultural implications of images in the media and popular culture.

ART 6473 Graduate Studio Ceramics Directed individual graduate level problems. May be repeated for credit.

ART 6483 Graduate Studio Drawing Directed individual graduate level problems. May be repeated for credit.

ART 6493 Graduate Studio Painting Directed individual graduate level problems. May be repeated for credit.

ART 6503 Graduate Studio Printmaking Directed individual graduate level problems. May be repeated for credit.

ART 6553 Readings in Art History Directed graduate level readings followed by oral and / or written reports.

ART 6563 Graduate Studio Photography Directed individual graduate level projects. May be repeated for credit.

ART 6643 Graduate Studio Sculpture An advanced course dealing with the production of sculpture in various media including clay, metal, metal casting, and carving.

ART 6693 Graduate Studio Digital Design Students will work on independent projects in consultation with the instructor that will serve their individual interests and needs. The course is designed to be as flexible as possible and to enhance the graduate student's experience. May be repeated for credit.

ART 6983 Graduate Studio Illustration Directed individual graduate level projects. May be repeated for credit.

Communication and Theater Arts

COM 5083 Special Topics in Communication Issues in contemporary communication will be studied as appropriate in a given semester. Propaganda, leadership communication, and political communication are examples of topics that might be addressed. May be repeated.

COM 5093 Persuasion Theoretical bases of persuasion. Students will gain experience as producers and critical consumers of persuasive messages.

COM 5133 Rhetorical Theory Investigation of the major theories of rhetoric and the evolution of rhetorical thought. Emphasis on the role of rhetoric in shaping human experience and creating individual reality.

COM 5141-3 Individual Study Open to advanced students with intellectual curiosity regarding specific problem areas. Problems must be selected with approval of major advisor before registration.

COM 5403 Seminar in Communication Shared papers on topics relative to specific student interest: semantics, linguistics, cultural barriers to communication, etc.

MMC 5001-3 Yearbook Advisors Practicum Students will be supervised in the production of a school yearbook in preparation for becoming an advisor. Students will be required to research, write and edit feature stories for publication in a yearbook. Students will receive hands-on experiences in a yearbook laboratory using Macintosh Desktop Publishing and will learn the PageMaker program and be instructed in the use of Photoshop and graphic design.

MMC 5053 Directing Publications Students will discuss legal issues confronting America's student journalists, advisors, and administrators at the high school and college level. Ethics and responsibilities of school media advisors will be considered as well as the governance of school publications. Technology for publishing a yearbook and newspaper will be reviewed and utilized.

MMC 5071 Independent Study Open to advanced students with intellectual curiosity regarding specific problem areas. Problems must be selected with approval of major advisor before registration.

MMC 5283 Educational Television Teaching on television for distance learning and other applications; using video to supplement classroom lessons; teaching TV production to secondary school students; critiquing the medium.

MMC 5293 Creative Nonfiction A readings course examining the history, art, and critical thought regarding 20th-century nonfiction prose, including autobiography, journalism, travel, science, and natural history writing by such authors as Stephen Crane, James Agee, Annie Dillard, Ernest Hemingway, John McPhee, Diane Ackerman, and others.

MMC 5303 Writing for New Media A workshop designed to introduce students to professional writing for current markets, particularly for such new media as online magazines, interactive cd games and reference works, interactive fiction, direct distribution media, etc.

MMC 5443 Special Topics in Mass Media Issues in contemporary communication will be studied as appropriate in a given semester. Freedom of speech, courtroom communication, mass media influences on communication, presidential elections, and other campaigns are examples of topics that might be addressed. May be repeated.

MMC 5453 Seminar in Mass Media Shared papers on topics relative to specific student interests: semantics, linguistics, cultural barriers to communication, mass media topics, etc. May be repeated.

THA 5091-3 Theater Production Techniques Special studies in directing or technical aspects of theater. Students work closely under the supervision of veteran directors or designers. Enrollment by special permission only.

THA 5173 Theater Dramaturgy Dramaturgy is an exercise in the use of creative imagination and aesthetic judgment. Dramaturgy includes all of the analytical, research and writing skills required of the liberally educated student.

THA 5373 Repertory Theater Production of plays for public performance. Sessions consist of laboratory work preparing scenery, lighting, costumes, make-up, properties, and rehearsal of plays in production.

THA 5413 Theater Seminar Special emphasis on problems related to the production of plays.

THA 5443 Theater History A course dealing with the rise and development of the theater from primitive ritual to the present. Emphasis on the theater as an institution and art form.
Prerequisite: THA 2103 or consent of instructor.

Economics

(See the School of Business for a listing of courses).

English

ENG 5103 Shakespeare A study of a number of comedies, romances, and tragedies. Focus is on character development and poetry.

ENG 5123 Renaissance Literature of England A survey of the historians, poets, and dramatists of the late 16th and early 17th centuries, excluding Shakespeare. Special attention will be paid to such writers as Drayton, Holinshed, More, Skelton, Sidney, Spenser, Marlowe, Donne, Jonson, Bacon, and Milton.

ENG 5163 Modern Grammar An analysis of the English language according to traditional, structural, and transformational methods. Content includes Reed-Kellogg method of diagramming, sentence patterns, morphology, basic transformations, form and structure classes.

ENG 5173 Modern Drama A study of American and European drama from 1890-1960. Plays will be drawn from the works of such dramatists as Ibsen, Strindberg, Chekov, Shaw, Sartre, Brecht, Miller, O'Neill, Williams, and Yeats.

ENG 5193 Victorian Literature A study of the prose and poetry of the Victorian era focusing upon Macaulay, Carlyle, Newman, Mill, Huxley, Arnold, Tennyson, Ruskin, Browning, Rossetti, and Swinburne.

ENG 5203 English Romantic Literature A study of the tenets of romanticism in English literature and a survey of representative writers of the romantic period.

ENG 5213 English and Its Development A study of the evolution of English, including an examination of the structure of the language, its position in the world and its relation to other

tongues, the wealth of its vocabulary, and the sources from which that vocabulary has been and is being enriched.

ENG 5223 American Novel A Study of major American novelists from 1820 to the present. The course will cover such representative authors as Cooper, Hawthorne, Melville, Crane, James, Twain, Dreiser, Norris, Dos Passos, Fitzgerald, Steinbeck, Hemingway, Faulkner, and Bellow.

ENG 5303 Literature of the American South A study of the development of Southern literature from the colonial beginnings to the present. Principal works of various Southern writers are studied to determine the nature and techniques of this regional literature and to view its prominent station in national literature.

ENG 5323 Greek Drama A study of tragedy and comedy from the classical Greek period. Plays will be selected from the works of Aeschylus, Sophocles, Euripides, and Aristophanes.

ENG 5353 Eighteenth Century English Literature A survey of the poetry and prose (no novel or drama) of the period, beginning with some outstanding Restoration writers and extending through the pre-Romantics. Much time is spent on close reading of the text. Library readings and a term paper are required.

ENG 5453 Advanced Composition An emphasis on writing compositions ranging from the personal essay to advanced forms of analytical, expository, and research papers. Attention will be paid to scholarly writing appropriate to the discipline of the individual student, with readings in various disciplines and study and application of the style guides of those disciplines (MLA for English). In addition to a series of shorter compositions, the course will require one extensive research project and paper. Required for licensure in English.

ENG 5463 Special Topics This course focuses on various genres and themes in literature as well as individual authors. Topics may include, but are not limited to, black literature, native American literature, Asian or Asian-American literature, Spanish or Hispanic literature, contemporary American poetry, American drama, Chaucer, Milton, Faulkner, or any other topic the department deems suitable. Because the content will vary, students may repeat this course for a total of six hours of credit.

ENG 5483 Acquisition of English as a Second Language A study of theory of acquisition of English as a second language, including the various stages of language development. It will examine the cognitive, physical, social, and emotional factors impacting on acquisition of English as a second language. Emphasis will be placed on instructional strategies promoting acquisition of English as a second language. This course is designed for students seeking an ESL Endorsement. This course does not substitute for EDU 4873, Special Methods: Foreign Language. (This course is not applicable to the MLA).

ENG 5533 American Romantic Literature A study of the characteristics of the American Romantic Movement in literature and a survey of representative writers of the period.

ENG 5563 Adolescent Literature This course focuses on literature appropriate for adolescent readers. The selections span classic to contemporary, including the genres of novel, short story, and poetry. This course is open to all English majors and prepares the student to teach literature in middle and secondary schools; it is required for completion of the teacher-licensure program of study in English. The course is also beneficial to librarians, parents, or caregivers who select or suggest reading material for adolescents. Multiple texts and designated materials will be used.

ENG 5583 International Short Story A study of the short story as a genre, including its history and development up to the present. Writers from various countries will be represented.

ENG 5593 English Novel: 1830-1950 A study of major English Victorian and modern novels. The course will include novels by such authors as Dickens, Thackeray, Trollope, the Brontes, Eliot, Hardy, Butler, Carroll, Conrad, Joyce, Woolf, Lawrence, Forster, Cary, and Waugh.

ENG 5603 Contemporary Literature An emphasis on post-World War II American and British fiction with some attention to non-fiction, poetry and drama.

ENG 5633 Introduction to Literary Criticism A study of the various approaches to literary criticism, their historical development, and their practical application. Students will also examine the close relationship between criticism and literary research.

ENG 5643 Rhetoric and Composition A course which examines theories concerning how language can be used for persuasion and how those theories have been implemented and extended to the teaching of writing. The course will also examine research in the field of composition focusing on implications for writing teachers and for those who want to improve their own writing skills.

ENG 5653 Medieval Literature A study of representative works in English literature dating from A.D. 450 to 1500 with a focus on Beowulf, Langland, the Gawain-poet, Chaucer, and miracle and morality plays.

ENG 5663 Introduction to Linguistics A survey of major historical schools of linguistics with emphasis upon contemporary theory and its application to the understanding and teaching of English.

ENG 5673 English Novel to 1830 A study of major English novels of the eighteenth and early nineteenth centuries. Readings for the course will be drawn from the works of such novelists as Defoe, Richardson, Fielding, Smollett, Sterne, Goldsmith, Mackenzie, Radcliffe, Austen, Scott, Mary Shelley, and Peacock.

ENG 5963 Special Topics This course focuses on various genres and themes in literature and language as well as individual authors. Topics may include, but are not limited to, black literature, Native American literature, Asian or Asian-American literature, Spanish or Hispanic literature, contemporary American poetry, American drama, Chaucer, Milton, Faulkner, or any other topic the department deems suitable. Because course content will vary, students may take this course twice for a total of six hours of credit.

ENG 5983 Advanced Creative Writing In this course, students will not only continue to develop and refine the portfolios they started in Intro to Creative Writing, but will also delve more deeply into the intellectual life of the writer. To that end, contemporary fiction and poetry will be analyzed through a series of book reviews and formal explications of individual poems and stories. Furthermore, students will also gain valuable editing experience by developing an issue of *Proscenium*. Graduate students working on a creative writing project for the MLA program may enroll with permission of the MLA director and course instructor.

ENG 6253 Problems in Interpretation An in-depth examination of a particular critical question concerning a specific work, author, movement, theme, genre, or period of literary history. Since a different topic may be investigated each time the course is offered, students may take this course a second time for credit.

ENG 6273 Seminar in American Literature Directed, independent investigations by students; synthesizing lectures by the instructor. Since a different literary period, genre, or author will be studied each time the course is offered, students may take this course a second time for credit.

ENG 6283 Seminar in English Literature Directed, independent investigations by students; synthesizing lectures by the instructor. Since a different literary period, genre, or author will be studied each time the course is offered, students may take this course a second time for credit.

ENG 6433 Seminar in Comparative Literature An in-depth study of selected works from the great writers of Western civilization from Homer to the twentieth century. Since a different literary period and/or genre will be studied each time the course is offered, students may take this course a second time for credit.

Geography

GEO 5043 Economic Geography Class is designed to describe the main world-wide economics. The basis for economic location and function is presented and the structure of selected economics is analyzed.

General Studies

GEN 5073 Travel and Study

GEN 5083 Study Abroad: Non-Western

History

HIS 5093 Vietnam and the United States This course examines the history of the relations between the United States and Vietnam. Topics include the cultural, economic, and political background of both countries; the circumstances that led to war; the course of the war; the impact of the war on those who fought and on the civilian populations of both countries; the anti-war movement; responses of other countries to the conflict; and the political, economic, social, cultural, and psychological impact of the war on both countries.

HIS 5213 The American West A survey of Western history from the period before European contact with Indians to the present. The course will focus on the following themes: the interaction between Europeans and Native Americans in Western history; the specific features of the Western environment; views and myths about the West; women and men in Western history; the roles of racial minorities; Western political and cultural patterns; rural and urban movements for social change in the West; the role of the federal government in Western development; and the historiography of the West.

HIS 5223 The American Presidency An analysis of the American presidency, including the selection of the president and domestic and foreign policy powers of the office.

HIS 5233 American Foreign Policy An historical analysis of the development of American foreign policies.

HIS 5263 Arkansas and the Southwest A course designed especially for those who are preparing to teach Arkansas history. The course includes a story of the exploration and development of Arkansas, Texas, Louisiana, and Oklahoma.

HIS 5283 American Constitutional Development (See PSC 5053.)

HIS 5293 The Old South The political, economic, cultural, and social history of the southern states to the Civil War.

HIS 5313 History of American Labor An overview of the history of American labor from the colonial period to the present day. Topics include the quality of work life and working conditions; efforts to organize trade unions; the social and cultural experiences of working class neighborhoods and communities; and the political, civic, and educational activities of working people. Examination of the roles of women, racial minorities, and white ethnic groups is an important feature of the course.

HIS 5333 American Women's History An examination of the history of American women from the colonial era to the present, focusing on women's political organizations and social activism, economic importance, daily lives, and the ideological construction of gender roles.

HIS 5443 Medieval World A study of the social, cultural, and economic history of the Middle Ages from the end of the Roman Empire to 1500 with emphasis on European affairs.
Prerequisite: HIS 1013.

HIS 5603 Tudor and Stuart England A study of the political, constitutional, social, and economic developments in England, 1485-1689.

HIS 5623 Modern German History A survey of German history from Frederick the Great to the present. Emphasis is on political, economic, and social developments; Germany in two World Wars; the failure of democracy in the 1920's; the National Socialist regime; and the division of Germany.

HIS 5643 French Revolution and Napoleon A study of the era of revolution and reaction, 1789-1815; its causes and effects.

HIS 5653 Modern Russian History An examination of the political and social history of eighteenth and nineteenth century Russia as a background for the course's focus on twentieth century Russian history.

HIS 5683 The Modern Middle East A bird's eye view of the Ottoman Empire of the nineteenth century as a background, and a focus on the Arab world, Turkey, Iran, and Israel of the twentieth century. In the process, such current concerns as nationalism, modernization, Islamic Fundamentalism, and Arab-Israeli disputes will be examined in their historical settings.

HIS 5693 African History A study of the different civilizations in Africa and the resistance to the imposition of colonial rule on that continent.

HIS 5713 Social and Political Thought A study of the development of political and social philosophies with special emphasis upon present conflicts.

HIS 6563 Readings in History Directed readings followed by oral and/or written reports, discussion of authors, and evaluation and discussion of material with the director of the study. Prerequisite: fifteen (15) semester hours in history. May be repeated for credit with change of instructor.

HIS 6573 Historiography and Bibliography An introduction to the philosophy of history and the historiography and bibliography of leading American historians. Prerequisite: fifteen (15) semester hours of history.

HIS 6583 Research Seminar Independent research in history and related fields. May be repeated for credit with change of instructor.

HIS 6791-6 Master's Thesis Research

HIS 6983 Special topics in History

Liberal Arts

LA 6103 Truth, Order, and Beauty: Ancient World to 1600 This is a team-taught chronological and thematic consideration of the interrelationships among a number of great works of the Western world and their cultural contexts. During the course, the student is expected to read selected works in their entirety, conduct research, analyze, discuss, and write about such works.

LA 6203 Truth, Order, and Beauty: 1600 to Present This course explores differing interpretations of Truth, Order, and Beauty from the Seventeenth- Century (date flexible) to the present. Attention will be paid to the desirability of these categories, the possibility of attaining them, and the ways in which changing definitions of these terms reflect the intellectual currents

of modern society and the differing philosophical perspectives of a range of academic disciplines.

LA 6113 Teaching and Technologies in the Two-Year College This course focuses on cultures, missions, and practices of teaching in community colleges, especially in south Arkansas. The course will consider the role of general education requirements, assessment, distance education, and will focus on practical issues such as career transitions, syllabus design, writing courses and pedagogy, and the development of one's own teaching ethic as a potential faculty member.

LA 6123 Internship Students will teach one class as a paid adjunct on a community-college campus in conjunction with community-college faculty. Students will have community-college teachers as mentors on campus and will accompany them to department meetings, committee meetings, and all other functions in their mentors' normal routines.

LA 6503 Liberal Arts Project I Research and Development. This course focuses on the preliminary steps students must take in preparing to embark upon a semester-long project. Writing, citation, and research will be discussed and practiced. The end of the course will produce a rough draft of the project and bibliography.

LA 6513 Liberal Arts Project II Independent Study with committee.

LA 6543 Liberal Arts Thesis I Independent Study with committee.

LA 6553 Liberal Arts Thesis II Independent Study with committee.

Mathematics and Computer Science

MTH 5093 Systems of Geometry II Continuation of MTH 5023. Prerequisite: MTH 3023.

MTH 5123 Special Topics in Math Education A broad range of topics in mathematics content that will include, but not be limited to, algebra, geometry, probability, statistics and data representation, and the use of technology. Topics will be addressed to middle school and/or high school teachers. Students will be able to repeat the course for credit when different topics are being presented than when the student previously took the class. A designation of the topics covered will be recorded on the transcript.

MTH 5133 Algebraic Structures I An introduction to an axiomatic approach to the number system and algebraic systems such as groups, rings, fields, and Boolean algebra. Prerequisite: MTH 2283.

MTH 5143 Algebraic Structures II Continuation of MTH 5133. Prerequisite: MTH 3133.

MTH 5153 History of Mathematics This course is designed to give the student an opportunity to study the development of elementary mathematics from primitive counting to the modern accomplishments in algebra, the geometries, and the calculus. In order to make the course more

concrete and meaningful to the student, sets of "Problem Studies" are provided. Prerequisite: MTH 2045.

MTH 5223 Introduction to Topology An introduction to topological spaces, homeomorphism, compactness, separation, and connectedness. Prerequisite: MTH 3133.

MTH 5233 Advanced Calculus I The calculus of one of several variables. Sequences, series, continuous and differentiable functions, integration theory, and infinite series of function. Prerequisite: MTH 2283, 4103.

MTH 5303 Advanced Calculus II Continuation of MTH 5233. Prerequisite: MTH 4233.

MTH 5313 Vector Analysis The algebra and calculus of vectors. Applications. Prerequisite: MTH 2045.

MTH 5331-3 Independent Study Independent study in an area of mathematics selected by the student and faculty advisor. Credit will vary from one (1) to three (3) hours. May be repeated. Prerequisite: consent of faculty advisor.

MTH 5353 Higher Order Thinking in Mathematics A course that provides mathematics teachers in grades five through college with examples of lessons incorporating methods appropriate for students with different learning styles. Emphasis will be placed on the use of manipulatives, cooperative learning techniques, and technology in the teaching of mathematical content that will help teachers build mathematical connections across the grade levels. Topics will include statistical techniques and sampling, geometric probability, geometry and algebra topics, number theory, mathematical reasoning, exponential growth and decay, graphing techniques, and discrete mathematics topics.

MTH 5373 Numerical Analysis An introduction to numerical methods solving to include error analysis, interpolation procedures, differentiation, integration, solutions of non-linear and differential equations, and approximation of functions. Prerequisites: MTH 2045 (Calculus II) and CSC 1103.

MTH 5433 Probability and Statistics II The mathematical theory of probability and application of this theory to statistical inference. Topics will include confidence intervals for various statistics, tests of statistical hypotheses, linear models, and quality control through statistical methods. Prerequisites: MTH 2045, MTH 3163/5163.

MTH 5443 Introduction to Database Theory See CSC 3133.

MTH 5453 Introduction to Compiler Theory See CSC 3153.

MTH 5463. Assembler Language See CSC 5173.

MTH 5473 Simulation Theory See CSC 5213.

MTH 5491-3 Special Topics in Mathematics Education: A broad range of topics in mathematics content that will include, but not be limited to, algebra, geometry, probability, statistics and data representation, and the use of technology. Topics will be addressed to middle school and / or high school teachers. Students will be able to repeat the course for credit when different topics are being presented than when the student previously took the class. A designation of the topics covered will be recorded on the transcript. Prerequisites: Secondary - MTH 1243, MTH 1295. Middle school - MTH 2344, MTH 2424 or consent of instructor.

MTH 5603 - Certification Seminar - Functional Mathematics - This seminar is designed to prepare mathematics teachers to teach the Functional Math course, a fourth year high school mathematics course. Topics will include algebra, geometry, probability and statistics. Problem solving and use of technology will be an integral part of the course. Prerequisites: Licensure to teach secondary mathematics.

MTH 5641-3 - Teaching for Understanding in Mathematics - The course will engage participants in a comprehensive and thorough study in the instructional strategies and practices for mathematics. Participants will examine various examples of curriculum, pedagogical approaches and assessments with the focus upon standards-based curriculum and instruction. Prerequisite: Currently teaching P-12 mathematics or a pre-service mathematics teacher.

MTH 5693 Special Topics in Mathematics - Topics selected from the areas of analysis, algebra, geometry, topology, logic, statistics, or other areas according to student needs and the instructor's specialization. The student's transcript will indicate the specific topic covered. Because course content will vary, students may repeat the course for a maximum of six hours credit. Prerequisite: Consent of the instructor.

MTH 5961-3 - Special Topics in Mathematics - A broad range of topics in mathematics that will include, but not be limited to, topology, number theory, probability and statistics, real and /or complex analysis, geometry, graph theory, and combinatorics. Students will be able to repeat the course when different topics are being presented than when the student previously took the class. Prerequisites - MTH 2283, MTH 3103, or consent of instructor.

MTH 6173 Modern Abstract Algebra Groups, rings, integral domains, fields and modules. Prerequisite: MTH 3133.

MTH 6183 Theory of Numbers Number theoretic functions, congruences, quadratic residues, Diophantine equations, continued fractions. Prerequisite: MTH 3133.

MTH 6193 Statistical Analysis Probability, frequency distributions, sampling theory, correlation, and regression and testing hypotheses. Prerequisite: MTH 3163. MTH 6203. Seminar in Mathematics. A study of selected topics in mathematics.

MTH 6363 Projective Geometry Basic axioms of projective geometry, quality, Desargue's Theory, projective theory, cross ratios, projective theory and conics, and coordinate projective geometry. Prerequisite: MTH 3023.

MTH 6403 Intermediate Analysis I The real number system, analytic geometry, and calculus from an advanced standpoint. Designed primarily for prospective teachers of junior and senior high school mathematics. Prerequisite: MTH 2045.

MTH 6413 Intermediate Analysis II A continuation of MTH 6403. Prerequisite: MTH 6403.

MTH 6971-6 Master's Thesis Research

CSC 5123 Special Topics in Computer Science Selected topics in Computer Science: A broad range of topics in computer science including software and hardware concepts, computer architecture, electronic communication and computer networks, Internet, and corresponding technologies, and other current issues in the computing field. Students will be able to repeat the course for credit when different topics are being presented.

Music

MUS 6103 Music and Culture Issues on the effects of music on society will be studied. A variety of composers, style periods, and/or genre will be studied as appropriate in a given semester.

Philosophy

PHI 5043 History of Philosophy: Ancient and Medieval. A survey of the major movements and figures in Western philosophy from the pre-Socratics to the Renaissance. Primary emphasis will be given to the analysis of readings from the translated writings of the philosophers themselves.

PHI 5053 History of Philosophy: Modern. A survey of the major movements and figures in Western philosophy from the Renaissance to the contemporary period. Primary emphasis will be given to the analysis of reading from the writings of the philosophers themselves.

PHI 5073 20th Century Philosophy This course examines the 20th century incarnation of the tradition that began with the British Empiricist movement, focusing particularly on the Pragmatists and the Process philosophers, and serves as a continuation of the History of Philosophy cycle: Ancient, Modern, and now American.

PHI 5003 Special Topics This course focuses on various topics of philosophical importance. Examples of such topics include Philosophy of Science and Asian Philosophy. The course may be taken twice for credit if topics are different.

PHI 6493 Readings in Philosophy Graduate level directed readings in a philosophical area chosen by the student.

Physical Science

PHS 5183 Higher Order Thinking in Science This laboratory-based course stresses the learning of science as active, integrated, constructive processes involving experimentation, investigation, communication, reasoning and problem solving. The course builds foundations in

content to show connections and relevant applications in the areas of life systems, earth systems, and physical systems. The goals of the course are to help teachers extend content learning, to help teachers create successful learning environments for every student by teaching them to use manipulatives, calculators, science equipment, and various learning strategies, and to provide access to appropriate materials, equipment and technology.

Political Science

PSC 5053 American Constitutional Development The American Constitution from its colonial origins to the present: emphasizes the forces and philosophies that influenced its forming and its subsequent development by formal amendment, statutory elaboration, judicial interpretation and change in usage.

PSC 5073 Social and Political Thought (See HIS 5713.)

PSC 5093 International Relations This course is devoted to questions, issues, and problems that states and their governments have raised as a result of their relations as members of the international community.

PSC 5103 American Foreign Policy (See HIS 5233.)

PSC 5133 Political Behavior

PSC 5163 Public Policy A study which introduces the students to the policy process: policy formulation, policy analysis, policy implementation, and policy evaluation. Prerequisite: PSC 1013.

PSC 5173 Civil Liberties A study of leading U.S. Supreme Court decisions on individual liberty and equality, including the social effects of those decisions.

PSC 5223 The American Presidency This course focuses on the origins and evolution of the American Presidency.

PSC 5233 Comparative Politics in the Middle East A comparative study of the major nation-states in the Middle East.

PSC 5243 Comparative Politics in Africa A comparative study of the major nation-states in Sub-Saharan Africa.

PSC 5303 Research Methods A graduate course focusing on the research processes in political science and public administration and public management. It analyzes research design, research problems, hypotheses, measurement, sampling, data collection, data processing and analysis. The students also learn to use Statistical Package for Social Sciences (SPSS) for data analysis.

PSC 6183 Seminar in Politics A treatment of selected aspects of American, foreign, and international politics. May be repeated with a change of instructor for a maximum of six (6) hours credit.

PSC 6971-6 Master's Thesis Research

PSC 6983 Special Topics in Political Science

Psychology

PSY 5001, 5002, or 5003. Special Topics in Psychology This graduate course is an elective designed for faculty to teach special courses in their areas of expertise, to offer courses of particular interest to students, and to address contemporary issues in the study of psychology. The topics will vary each time the course is taught, and will be announced when the course is offered. To meet specific needs, some upper-level undergraduate courses (e.g., *Advanced Statistics, Cognitive Psychology, Physiological Psychology*) can be offered for graduate course credit under this heading. Graduate-level special topics covered include *Personality Theories* and *Problems in Adolescence*. Course may be repeated when a different topic is taught.

PSY 5353 Psychology in Literature Psychological study of literature, exploring its structure, function, and psychological value. Topics of discussion include symbolism, archetypes, genres, the purpose of storytelling, applications of psychological theories and concepts, accuracy in the depiction of psychological variables and mental health professionals, how writing and reading reflect cognitive processes, and the therapeutic value of literature. Character analyses involve examination of personality, mental illness, developmental issues, conflicts, and motivation. This course counts as an interdisciplinary elective for Henderson's Master of Liberal Arts program and has been accepted as an elective for the Master of Science in Community Counseling.

PSY 5723 Psychology of Religion This course examines the empirical data and psychological theories involving religious beliefs, practices, and experiences. At completion of this course, students should be knowledgeable of the psychological functions of religion for individuals. This course counts as an interdisciplinary elective for Henderson's Master of Liberal Arts program.

Sociology

SOC 5063 World Cultures A worldwide survey of traditional Non-Western cultures, from small scale foragers and farmers to socially complex Non-Europeans of the recent past and present.

SOC 5123 Seminar in Sociology An analysis of selected aspects of social organizations.

SOC 5183 Death and Dying An inquiry into various issues in dying, death, and bereavement, with attention to existing research, pertinent theory, relevant social organization and processes, and philosophical and ethical questions. An experiential study which examines feelings and attitudes toward death of others and of one's self.

Theatre

THA 5141-3 Individual Study* This intensive course is open to advanced graduate students with intellectual curiosity regarding specific problem areas. Problems must be selected with approval of major advisor before registration.

THA 5443 Theater History I: Classical to Neoclassical A course in the history of theater and its literature from primitive ritual and Classical Greece and Rome through the medieval period and the European Renaissance. Emphasis on the theater as an institution and art form. Prerequisite: THA 2103 - Play Analysis or consent of instructor.

THA 5463 Theater History II: Baroque to Contemporary A continuation of the study of the history of the theater and its literature covering the major developments of the eighteenth, nineteenth, and twentieth centuries with an emphasis on the theater as an institution and art form. Prerequisite: THA 2103 - Play Analysis or consent of instructor.

SCHOOL OF BUSINESS

Description of Courses

Accounting

ACC 5113 Advanced Auditing A study of advanced issues including, computer-based information systems, fraud, Security and Exchange Commission regulations, and sampling through the case approach. Prerequisite: ACC 4093.

ACC 5173 Advanced Federal Income Tax A study of the Internal Revenue Code as it applies to partnerships, corporations, and estates and trusts. Prerequisite: ACC 4163.

ACC 5223 Special Studies in Accounting Individual or group research and seminar discussions on special issues in the field of accounting. Prerequisite: ACC 2023 and consent of instructor.

ACC 5243 Not-for-Profit Accounting The study of accounting procedures and regulations required for federal, state, and local governmental agencies; in addition the course reviews required accounting principles for non-profit hospitals, public colleges and universities, public schools and other non-profit organizations. Prerequisite: ACC 2023.

ACC 6123 Accounting for Business and Financial Management The application of accounting to firms in manufacturing, retailing, and service industries. The course emphasizes using accounting information to make management decisions: includes analyzing financial statements, cost analysis, budgeting, and capital investment decisions. Prerequisite: ACC 2023.

ACC 6233 Special Problems An individual study of advanced accounting topics. Prerequisite: Consent of instructor.

ACC 6263 Accounting Theory The primary objective of this course is to explore the theoretical foundations of Generally Accepted Accounting Principles. The students should also learn the basics of researching a financial accounting problem. This course will utilize the case method of instruction, a method which requires (among other things) self-motivation, critical thinking and communication skills (both written and oral).

Business Information Systems

BIS 5043 System Analysis & Design The study of the analysis, design, and implementation of information systems used to assist organizations in decision making. Emphasis is placed on the systems approach to decide what information is needed and how it should be collected, organized, and stored. The course examines the impact of information systems upon the organization structure. Prerequisites: BIS 3103 and junior-senior standing.

BIS 5083 Independent Study Prerequisite: Instructor consent.

BIS 5093 Special Topics Prerequisite: Instructor consent.

BIS 6253 Strategic Information Systems This course examines the various ways in which information technology can be leveraged by an organization for competitive advantage and addresses the issue of IT strategy and evaluation. Attention is given to strategic implementation of technology, developing and maintaining secure and effective systems, and externally focused systems. Prerequisites: MGM 3113; BIS 2073.

Economics

ECO 6213 Economic Analysis for Managerial Decisions An application of micro- and macroeconomic theories to managerial decision making including demand and cost analysis, theory of the firm, monetary policy and the Federal Reserve System with an emphasis on quantitative economic analysis. Prerequisites: ECO 2013, 2023; GBU 3133.

ECO 6043 Public Economics Government plays a central role in the lives of all Americans, yet there is ongoing debate regarding the proper role of government. This course prepares students to think economically in a public managerial context—whether as policymakers themselves or as managers operating within a given policy context. The evolving role of government and exciting contemporary policy debates motivate each topic. This course may be taken prior to ECO 6213. Prerequisite: ECO 2013 Microeconomics.

Finance

FIN 5073 Advanced Financial Management A study of the corporate finance function with emphasis on financial analysis techniques for decision making. Topics include leasing, capital structure, dividend policy, international finance, financial derivatives and mergers and acquisitions. Prerequisite: FIN 3043.

FIN 5103 Investment Principles Foundations for investment decision-making are covered. This course involves a study of the characteristics of all types of investment securities, the types of investment risk, and the worth and suitability of various types of securities for investors in different circumstances and with different investment objectives. Growth factors in investment and investment strategies for both limited-income securities and variable-income securities are investigated. Emphasis is focused on common stocks and equity-investment vehicles such as investment company shares and variable annuity contracts. Prerequisite: FIN 3043.

FIN 5163 Special Studies in Finance Individual or group research and seminar discussions on special issues in the field of finance. Prerequisite: FIN 3043 and consent of instructor.

FIN 5213 Security Analysis & Portfolio Management Students will actively manage the Ross Whipple Student-Managed Investment Fund while learning to evaluate and price stocks as well as other securities. Topics include modern portfolio theory, risk and return assessment, financial

statement analysis, and analysis of market trends. Prerequisites: FIN 3043, or instructor consent.

FIN 5221 Portfolio Management Lab Students actively manage the Ross Whipple Student Managed Investment Fund. Activities include the analysis of the overall economy, sectors, and individual companies as well as the reporting of such analysis to fund stakeholders. This course may be repeated for a maximum of 3 hours credit. Co-requisites: FIN 4103, 5103 or FIN 4213, 5213 or Prerequisite: FIN 4103 or FIN 4213.

FIN 6113 Managerial Finance This course addresses "real world" issues from both theoretical and practical standpoints for most types of businesses, proprietorship, partnership, and corporation. The specific objectives for the course include the following: 1) financial management of the firm with special emphasis on financial planning, capital budgeting, and cost of capital concepts; 2) an analysis of management aspects relating to the inflow and outflow of capital in business enterprise; and 3) practicing financial decision making through case methods. Prerequisite: FIN 3043.

General Business

GBU 5003 Internship in Business Prearranged and supervised work experience to include exposure to specific administrative, management, or marketing functions within an area organization. Enrollment limited to three (3) semester hours credit. Junior-senior or graduate standing. Minimum 2.5 GPA and approval of the MBA Director required.

GBU 5153 Commercial Law A study of the laws applicable to commercial transactions. Areas of law covered include contracts, the law of sales, commercial paper, secured transactions, suretyship, creditor rights, bankruptcy, and lender liability. Prerequisite: GBU 3143.

GBU 5163 The Law of Business Organizations A study of the laws applicable to business organizations. Topics covered include agency law, partnerships, corporations, property rights, and the regulation of business, including antitrust, securities regulation, and employment discrimination. Prerequisite: GBU 3143 or consent of instructor.

GBU 5172 Business Mentorship Experience This course provides students with mentors who are successful professional businessmen and women. They will provide opportunities and guidance for practical application of skills students have developed in their course work. Insight is given on successful ways to enter and function in the business world. Mentors offer suggestions on improving personal and professional skills so students will be more marketable. Prerequisites: Students must fill out an application to enter this course and receive consent of the instructor. Students should plan to commit to both the fall and spring semesters for maximum benefit from this course. This is a credit/no credit course.

GBU 5223 Applied Entrepreneurship This course is designed to develop and understanding of entrepreneurship and the business planning process. Topics will include entrepreneurial mindset, developing business plans, marketing, managing operations, and financial management. Interested students should have a basic business idea in order to successfully complete the course. Prerequisites: GBU 4213 or MGM 4143. Instructor approval required to register for this course.

Management

MGM 5023 Human Resource Management The primary objective of this course is to provide the student with an overview of contemporary human resource practices as they relate to the management of individual organizations. Major topics covered include: environmental and legal aspects, staffing, development, compensation, safety and health, and employee relations. Prerequisite: MGM 3113 or equivalent.

MGM 5053 Non-Profit Management This course is designed to introduce students to the theory and practice of nonprofit management. Students will be introduced to management, leadership, accountability and performance, marketing and communications, as well as ethical and the legal foundations of non-profit management. Special topics such as advocacy and lobbying, governing and managing international organizations, and social entrepreneurship will be covered. The service-learning component of this course will give students opportunity to study a non-profit organization.

MGM 5063 Grant Writing and Non-Profit Funding This course will introduce students to how nonprofits obtain and manage financial resources. Areas of focus include philanthropic fundraising, earned income strategies and government support. It examines the strategies and execution of grant and proposal writing as well as contract administration in the nonprofit and governmental sectors. Students will engage in all aspects of grant and proposal writing, including how to efficiently and effectively describe program design, outcomes, objectives and methodology, data management, evaluation, and budget development applied to the preparation of an actual proposal. Students will also examine the contract administrative responsibilities resulting from successful grants and contracts, including monitoring and reporting program and fiscal data.

MGM 5073 Operations Management A study of the principles and quantitative techniques of management utilized by the operations manager in the allocation of resources in manufacturing and service firms. The application of classical quantitative methods and current management science techniques to business problems. Prerequisites: GBU 2013, 2072, 3133; MGM 3113 or equivalent.

MGM 5083 Public Budgeting and Finance This course covers budgeting in a broad perspective providing a familiarity with the economic and political implications of budgeting at the state and local levels of government. Topics covered include the budgetary process, types and

uses of budgetary systems with focus on performance-based budgeting, performance measurement, audit and evaluation of performance budgeting at the three levels of government. It will also include financial management of public and nonprofit programs.

MGM 5143 Small Business Management This course is designed to develop an understanding of the many facets involved in developing, owning, and operating a small business. Topics will include entrepreneurial opportunities, developing business plans, marketing, managing the operation, and financial management. A business plan for the start-up of a new firm or the purchase of an on-going business is required. Prerequisites: MGM 3113; MKT 3013 or equivalent.

MGM 5153 Organizational Leadership A study of the influence that leadership has on organizations. Topics covered will include human behavior in organizational settings; individual, team and organizational motivation factors; decision making and problem solving; group and team management; and organizational change and development. Prerequisite: MGM 3113.

MGM 5193 International Business Introduction to the environment of international business with emphasis on cultural diversity, international institutions, government-business interface, and global competition. Case studies will be used to emphasize issues. Country studies (both written and oral) will be developed and presented. Prerequisite: MGM 3113.

MGM 5243 Special Studies in Management Individual or group research and seminar discussions on special issues in the field of management. Prerequisite: MGM 3113 and consent of instructor.

MGM 5253 Advanced Human Resource Management This course studies problems in the field of human resource management, emphasizing development of the ability to analyze problems and to apply management fundamentals to the human resources arena through cases, exercises, readings, debate, projects and simulation. Students will develop a research paper on a human resource topic to be submitted for oral presentation and publication.

MGM 5273 Quantitative Management in Spreadsheets The course uses Excel spreadsheets as the medium for teaching quantitative management concepts. Coverage includes regression analysis, time series analysis and forecasting, optimization and simulation modeling. This course meets in the computer lab for its entire duration. Knowledge of Microsoft Excel, Word, and at least junior standing are required for all students.

MGM 6123 Organizational Strategy The course examines the key issues involved in formulating and implementing corporate strategies. These issues are approached from the position of the general manager, who must analyze complex business situations and find realistic solutions to strategic and organizational problems. The course merges various functional areas and provides students with a "total business" perspective on corporate and international strategy.

Students also receive an overview of contemporary business and its future. Prerequisite: MGM 3113.

MGM 6183 Trends in Management A seminar on selected concepts and theories in the field of management. The purpose of the course is to examine recent developments in the field of management. Prerequisite: MGM 3113.

MGM 6193 Policy Formulation and Implementation This course focuses on policy formulation techniques, implementation, and evaluation. It covers areas such as identification of policy needs, policy issues, goals and objectives, policy adoption, problems of implementation and evaluation.

Marketing

MKT 5033 Retailing This course presents the principles and methods of modern retailing with particular emphasis on entrepreneurship and global and ethical issues. Project, paper, and presentation required. Prerequisites: MKT 3013.

MKT 5053 Promotional Management A course designed to improve the student's understanding of all of the major marketing communication functions: advertising, direct marketing, sales promotions, and personal selling. Promotion project required. Prerequisite: MKT 3013.

MKT 5113 Marketing Research Basic research concepts and techniques are applied to a marketing problem. Course is project based with a paper and presentation required. Prerequisites: GBU 2013, GBU 3133; MKT 3013.

MKT 5133 Special Studies in Marketing Individual or group research and seminar discussions on special problems in the field of marketing. Prerequisite: MKT 3013 and consent of instructor.

MKT 5153 Sales Management Sales management is the analysis of principles and techniques of personal selling and problems facing the sales executive with emphasis on policy matters. Particular attention is paid to organizing, directing, and controlling the sales force with a focus on practical skills, ethical and legal responsibilities. Prerequisite: MKT 3013

MKT 5163 Consumer Behavior An analysis of consumer motivation, buying behavior, market adjustment, product innovation and adaptation, and consumer market measurement. Consumer decision making is evaluated in relation to psychological drives and sociological concepts used by producers, middlemen, and consumers. Prerequisite: MKT 3013.

MKT 6063 Marketing Seminar A graduate marketing seminar to provide a comprehensive knowledge of marketing strategy and marketing program development. Students will solve business problems using case analyses. They will be expected to read widely in the marketing literature and complete a project and/or simulation. It is recommended that this "capstone" course be taken near the end of the student's program of study. Prerequisite: MKT 3013.

TEACHERS COLLEGE, HENDERSON

Description of Courses

EDUCATION

BTE 4063, 5063. Business and Technology Applications The course will involve an investigation of materials, methods, and techniques used in teaching business technology applications. Emphases will be on proficiency in the use of applications and the integration of applications. Fall only. *Prerequisite:* Keyboarding proficiency strongly recommended.

BTE 4153, 5153 (WI) Current Trends and Problems in Business and Technology Education. A course for the study of current issues, program development, curriculum design, etc. in business and technology education. Fall only.

BTE 4991-3, 5991-3 (WI) Business and Technology Education Workshop. Workshops focus on a current topic or trend in middle or secondary business and technology education and will include teaching methodology. Spring only.

EDL 6123 Research for Educational Practitioners This course introduces candidates to research techniques applying action research. The topic should address some issue within their own campus. The action research project will be completed and results presented at the end of the course.

EDL 6213 Organization Leadership This course provides an overview for all the areas important to a building administrator. It begins with the visioning process, looks at types of leaders, decision-making, professional development, supervision, budgeting and personnel and legal issues.

EDL 6223 Supervision and Education Leadership The philosophy, administration, and practice of supervision for the improvement of instruction on the elementary and secondary levels. The course will prepare the candidates with skills needed to implement the TESS evaluation system in Arkansas public schools.

EDL 6333 School Finance and Resources Management This course provides an overview of school resource management; a study of fund sources, equity and adequacy in school finance, principles of budgeting and cost accounting, the relationship of education to economics, Arkansas school finance, human resource management and related finance issues.

EDL 6343 School and Community Resources and Relationships This course will provide the candidate with the knowledge and dispositions needed to facilitate and engage in effective collaboration with both internal and external publics within the school and community. Emphasis will be placed on involvement of all stakeholders in the development and implementation of an effective school-community relations program that mobilize community resources needed to ensure success of all children.

EDL 6453 Educational Law and Political Systems This course examines legal processes as they affect American education, with special reference to Arkansas statutes and cases. The course is directly concerned with topics of primary interest to school administrators including student rights, teacher rights, the education of persons with disabilities, desegregation, tort liability, and contractual relationships of teachers, administrators, and other district employees.

EDL 6533 Principal Internship P-12 Candidates work in a P-12 public school setting(s) under the guidance of a public school principal(s) at both the elementary level and secondary level and a university professor to accrue appropriate hours to complete the internship requirements. . This work will involve the organization, administration, and operation of the school. Experiences will include interaction with social service agencies as well as private and community organizations. In addition, students will develop an action research field project with the approval and cooperation of the school principal.

EDL 6553 21st Century Skills in Educational Technology This course will allow candidates to take a deep look at emerging software and applications that will benefit the building level leaders in development of instruction and management of the school. The goals of this course are to allow candidates to become instructional technology leaders at the building and/or district level for the improvement of education for all students and teachers. This course will also allow candidates to review emerging software, applications, and hardware that will benefit the building level leaders in the development of instructional support, professional development and technology management of the school. The goals of this course are to allow candidates to become instructional technology leaders at the building and/or district level for the improvement of education for all students and teachers.

EDL 6623 Curriculum Strategies for Educational Leaders This course focuses on the interaction between curriculum, instruction, and assessment as essential to student achievement. It examines the role of the principal as a facilitator of curriculum design and implementation.

EDL 6653 CPA Internship for Special Education Supervisor Candidates work in a P-12 public school setting(s) under the guidance of a licensed special education supervisor and a university professor for a minimum of 217 clock hours. This work will prepare graduate candidates for senior level special education administration positions.

EDL 6693 Technology for School Leaders This course focuses on the use of technology across all functions of a school system. The course focuses on the leader's role for the utilization of technology in the schools.

EDL 7113 Executive Leadership This course explores the personal leadership style, knowledge, skills, and attributes of effective leadership. It is designed to develop the skills of the school leader in developing vision and purpose of the school, use information, frame problems, and act ethically in the context of the role of educational leader.

EDL 7123 Organizational Management (School Facilities Planning and Management) This is a course in planning, financing, constructing, maintenance, and operations of the school plant. This course will prepare district leaders with increased knowledge for creating appropriate twenty-first century educational learning environments.

EDL 7273 Program Improvement and Design This course provides the candidate with opportunities to assess data and investigate strategies to improve instructional practices leading to improved student achievement. The candidate will examine a variety of program design and develop plans to evaluate the effectiveness of existing programs.

EDL 7233 Advanced Research Methods This course is designed to prepare educational leaders to become more effective and efficient administrators through the application of educational research in the school setting. Emphasis is placed on the use of state and local school or district data, data analysis, interpretation, and reporting.

EDL 7363 Governance and Politics This course focuses on relationships between the superintendent and the school board, collaborative duties of the superintendent and the school board, and requirements of the law for all issues concerning school district practices.

EDL 7473 Leadership for Curriculum and Instruction This course encourages candidates to construct insight related to the philosophical, theoretical and historical foundations of curriculum and educational improvement. The main course goal is for students to examine curricular theory and research as they apply to educational transformation in leadership and instruction. Such inquiry is conducted in the context of the social, psychological and political milieu for curriculum and schooling.

EDL 7483 Human Resources and Accountability This course is a study of the administrator's role in recruitment, selection, induction, retention, classification, evaluation, and dismissal of school employees, including licensed and classified personnel.

EDL 7593 Fiscal Resources and Accountability This course focuses on the development of sound fiscal management procedures, development of accountability and auditing factors associated with effective school management.

EDL 7613 Mentorship in Educational Leadership This course provides significant opportunities in the workplace that gives the leadership candidate the opportunity to synthesize and to apply the strategic, instructional, organizational, and contextual leadership competencies of the program of study. Candidates work under the guidance of a district level administrator and a university professor on authentic problems and activities that require candidates to demonstrate leadership skills and practices fundamental to the performance of a district level administrator. Experiences are jointly planned and supervised by university and district level personnel.

EDL 7633 Curriculum Alignment and Assessment This course introduces administrators to methods and procedures for effective curriculum design, development, and implementation. It includes the implementation of effective assessment practices.

EDL7643 CPA Internship for Curriculum Specialist The Curriculum Program Administrator Internship is designed to give curriculum and subject area specialists an opportunity to translate theory into practice. During the internship, the student must work in an apprenticeship setting with a licensed curriculum practitioner in the intended area of specialization. The internship is intended for students seeking licensure as a Curriculum Program Administrator.

EDL 7703 Integrating Technology This course addresses specific technologies and how to integrate them into instruction. Integrating technology into the curriculum requires both technological skill and knowledge of curricular and pedagogical issues entailed in the process. Thus, in addition to developing specific technological skills, candidates will explore different ways of using technology in instruction, assessment, research, and professional development. Candidates examine current technological trends, pedagogical issues, and scholarly research addressing the integration of technology in teaching and learning.

EDL 7713 Technology for Communications In this course candidates will examine uses of technology to market school districts and to increase communication with all stakeholders. Candidates learn to use various technology to communicate with the school and business community.

EDL 7723 Technology for District Administrators District level leadership candidates will learn to use technology to collect and analyze data and examine security measures needed to protect district technology systems. Candidates will be introduced to social, legal and ethical issues arising out of the use of technology. The course will focus on district technology planning and funding.

EDE 5573 Early Childhood Curriculum A study of the foundations of early childhood education and the formulation of an approach to curriculum development based on a consistent educational philosophy.

EDE 6703 Practicum in Early Childhood Supervised observation and participation in an approved early childhood education program.

EDU 5313 Strategies for the Middle School Materials and methods for teaching middle level students.

EDU 5483 Acquisition of English as a Second Language A study of theories of acquisition of English as a second language, including the various stages of language development. It will examine the cognitive, physical, social, and emotional factors impacting the second language learner. Emphasis will be placed on instructional strategies promoting acquisition of English as a second language.

EDU 5533 Methods and Materials for Teaching Limited English Proficient Students The purpose of this course is to aid teachers in instructing limited English proficient (LEP) students. Current methods and materials for English as a Second Language (ESL) and bilingual instruction will be presented. Specific areas covered will include second language acquisition, language assessment, reading strategies, content area strategies, and cultural considerations.

EDU 5543 Teaching People of Other Cultures The objective of this course is to assist educators in working with a growing and unique segment of population with multicultural and multilingual backgrounds. Emphasis will be place on increasing educators' knowledge and sensitivity to the needs of culturally diverse students. Focus will also be placed on the strategies necessary to address students' needs.

EDU 5583 Classroom Management This course provides information related to the implementation of rules and procedures, use of lesson plans as management tools, practical application of discipline models, and skills needed for effective communication. Content includes analysis and discussion of cases and research of current resources. Fall only

EDU 5603 Second Language Assessment The purpose of this course is to aid teachers in the use and interpretation of various instruments designed to assess the needs of limited English proficient (LEP) students. Formal and informal assessment instruments in both English and native languages will be included. Particular attention will be placed on assessments to determine the level of English language proficiency of students.

EDU 5623 Economics Seminar A study of general and special topics in Economics as well as methods and techniques for the teaching of economics in public schools. A survey of curriculum materials available is conducted. Not for Business majors.

EDU 5833 Special Methods Business and Technology Materials, methods, and techniques for teaching vocational/business education and related subjects.

EDU 5843 NBPTS Pre-Candidacy This course is designed to aid those teachers who are interested in seeking National Board Certification. Guidance on completing major NBPTS assignments and tests will be the major focus of the course.

EDU 5854 Special Methods and Lab FCS This course emphasizes techniques for teaching, educational objectives for curriculum planning, using instructional technology, public relations practices, and guidelines for presentations specific to Family and Consumer Sciences.

EDU 5993 Workshop or Seminar A workshop in an area of teacher education.

EDU 5996 Workshop or Seminar A Workshop in an area of teacher education.

EDU 6053 Special Problems Individually designed problems in various areas of professional education. Readings, research, observation, and reports.

EDU 6161 Field Experience 1 This course will focus on preparing education professionals to better understand the characteristics of a highly effective teacher by investigating topics that may include multiculturalism, English as a Second Language, parenting, infusing technology and teaming. The content-focused observation component (at least two classroom observations) will be based upon the national content standards as well as Charlotte Danielson's Framework for Teaching. Collection of portfolio artifacts for Domains 1 & 2 and content standards will be emphasized. Only MAT candidates may enroll.

EDU 6162 Field Experience 2 This course will focus on preparing education professionals to become highly effective teachers by investigating topics such as classroom environment, teaching methods and strategies, using assessments in instruction, multiculturalism, Blooms Taxonomy, and infusing technology. Course components include at least two classroom observations based upon national content standards. Collection of portfolio artifacts for

Danielson's Domains 1-3 and content standards will be emphasized. Only MAT candidates may enroll.

EDU 6163 Field Experience 3 This course will focus on preparing education professionals to become reflective lifelong learners and highly effective professionals. Course components include at least one clinical classroom observation based upon the Charlotte Danielson's Framework for Teaching. Portfolios based upon Danielson's domains and national standards will be completed and presented. The course will include the opportunity for candidates to select and implement teaching methods/strategies to be used in the classroom to demonstrate their impact on student learning.

EDU 6303 School and Community Relations This course will focus on the theories, research, and legislation that pertain to developing cooperative relationships between schools, parents, and the local community for the benefit of students.

EDU 6383 Introduction to Teaching This course focuses on preparing education professionals to become highly effective teachers by investigating topics that may include the establishing a classroom environment, teaching methods and strategies, using assessments in instruction, professional responsibilities, and infusing technology. Danielson's four domains of effective teaching are presented. Only MAT candidates may enroll. Fall only

EDU 6413 Introduction to Research A study of the many types of research methods applicable to the several academic disciplines, including techniques for the interpretation, the reporting, and the presentation of research.

EDU 6640 MAT Orientation This course includes five required days of intense training prior to the beginning of the school year. Tk20 accounts are purchased as part of this course for the purpose of creating a professional portfolio. MAT teachers must receive course credit (CR) by the end of the fall term. MAT orientation serves as an introduction to teacher education and the teaching profession. The clinical field experience observation component (at least two classroom observations) will be based upon the Charlotte Danielson's Framework for Teaching. Only MAT candidates may enroll. Summer/Fall

EDU 6483 Advanced Instruction Methods and Procedures The purpose of this course is to help graduate students become effective and efficient classroom teachers by presenting and modeling methods and techniques used in various classroom settings. Students will apply the basic principles of Danielson's domains in public school classrooms. Only MAT candidates may enroll. Secondary candidates may be allowed to substitute a graduate-level content methods course for this course requirement. See advisor for approval.

EDU 6513 Advanced Foundational Studies A course which extends the undergraduate foundations to the advanced level in areas of Institutional, Psychosocial, Pedagogical, and Clinical Foundations, with attention given to multicultural and global perspectives.

EDU 6553 Action Research Practicum Design, organization, and implementation of an action research project under the direction of the student's major advisor. Prerequisite: Completion of EDU 6413 or consent of the major advisor.

EDU 6633 Curriculum Construction K-12 Various models and strategies for designing, developing and implementing K-12 curriculum are explored. Research and opinions of authorities are reviewed relative to past, present and emerging curricula and instructional practices.

EDU 6653 Assessment and Educational Measurement The purpose of the course is to provide students with a basic understanding of the formal and informal assessment process in the classroom, including the identification of various assessment methods and instruments, the analysis of assessment results, and the use of assessment data to direct learning in the classroom. Only MAT candidates may enroll. Spring only.

EDU 6663 Advanced Child & Adolescent Development This course is intended to actively involve students in an intensive study of the developmental traits of children and adolescents in ways that enhance and strengthen the impact of education professionals in the lives of students.

EDU 6713 Advanced Children's Literature Emphasis will be placed on analysis of children's literature and its use in developing learning skills with young children.

EDU 6813 Educational Law for Teachers A review of legal processes as they affect American education and Arkansas Public Schools with emphasis on student rights, tort liability, and contractual relationships of teachers, teacher rights and responsibilities, and other legal knowledge necessary for effective teacher rights.

EDU 6963 Technology and Curriculum This course is designed help students integrate technology into the curriculum. Students learn to select, use, and design technology based instructional teaching material which will engage learners. Students gain information about using the Internet and other technological resources when designing curriculum. The ISTE NETS-T standards are emphasized.

COUNSELING

CED 5033 Marriage Counseling and Family Systems Students will receive an introduction to the major theories and techniques of couples and family counseling including a working knowledge of family systems theories and their application in working with couples and families.

CED 5073 Advanced Play Therapy This course is an advanced course, focusing on theories and techniques, of play therapy, when applied to counseling children, adolescents, adults, and older adults. Emphasis is placed on the developmental, attachment related, and trauma related needs of individuals in the counseling process. Play therapy skills, techniques, and activities for all ages will be highlighted.

CED 5653 Family Counseling and Parent Education The basic philosophy and principles of helping families. The open forum method of interviewing families will be studied and practiced, combined with methods and techniques to help parents deal with family conflicts and discipline. This model is easily applied to the process of consulting with teachers about school-related discipline problems.

CED 5713 Advanced Human Development The study of human growth from infancy through adulthood, including theories of development in such areas as physical, mental, personality and social maturation, abnormalities and variations in development due to sex, culture, and environmental factors.

CED 5723 Assessment in Counseling A survey of the types and objectives of the various standardized tests used in the public school setting: achievement, mental abilities, aptitude, interest and self-appraisal instruments. Included in the course will be basic statistics necessary for the elementary understanding and interpretation of test data. Methods of study will include use of class lecture, research, films, and experience with test-taking and interpretation. Open to non-counseling majors.

CED 6013 Introduction to Professional Clinical Mental Health The basic philosophy and principles of the helping relationship and introduction to the management of organized counseling programs. Professional orientation studies of history, roles, professional organizations, ethics, standards, and credentialing. The introductory course for counselors-in-training and an elective for persons in other educational roles.

CED 6023 Professional School Counseling This course is designed to introduce students to the various tenets of the professional school counseling field. Specifically students will learn about ways to develop and implement developmental, comprehensive school counseling programs in schools at all grade levels. Students will learn about the primary domains from which all professional school counselors operate in order to meet the academic achievement of all students. A historical context will be reviewed as well as various reform efforts that have shaped the school counseling field will be discussed. This class is only offered in the Summer Session. This course is a prerequisite for CED 6733, Counseling Theories.

CED 6043 Psychopathology This course is designed to assist the mental health practitioner in understanding psychological disorders that are experienced by adults. Students will be learn to distinguish between abnormal and normal behavior. In understanding mental disorders, students will learn about the signs, symptoms, behaviors and thoughts that the person experiences. Additionally, all mental disorders will be conceptualized within various schools of counseling theory that underlie clinical practice. Students will learn to use the DSM V. Additionally, this course will sensitize students to the role that culture and other diversity issues play in the diagnosis and treatment of psychopathology.

CED 6053 Special Problems in Counseling Due to unique and extenuating circumstances, a student may need to take a required or approved elective CED course during a semester when that course is not offered. By enrolling in Special Problems in Counseling, the student is able to

take a course out of sequence by taking it on an individual basis. It is not an independent study course of the student or instructor's choosing. The same curriculum and requirements for the regular counseling courses will be used. Application to take Special Problems is made to the department chair. Students will meet regularly with an instructor on a period-arranged basis.

CED 6063 Counseling Children and Adolescents/Intro to Play Therapy This course is an introductory course, focusing on theories and techniques when applied to counseling children and adolescents. Emphasis is placed on the developmental needs of children and adolescents in the counseling process. Play therapy techniques for young children and creative techniques for adolescents will be highlighted.

CED 6083 Research & Program Evaluation A study of the many types of research methods applicable to the several academic disciplines, including techniques for the interpretation, the reporting, and the presentation of research. Also, the program development process, from needs assessment to program evaluation, will be covered

CED 6093 Pre – Practicum This course provides to provide an understanding of fundamental counseling skills such as relationship building, basic assessment, goal setting, selection of interventions, and evaluation of client outcomes. This course is intended for graduate students who have a working knowledge of counseling theory and would like to gain fundamental counseling skills. The course may also be beneficial for practicing counselors interested in enhancing their current skills.

CED 6583 Counseling and Substance Abuse The course reviews addictive processes and disorders from historical and current perspective. Included are theoretical models of understanding and treating misuse, abuse, and addiction. Assessments and comorbidity are reviewed to assess severity of addiction, develop treatment plans, and determine treatment setting.

CED 6633 Supervision This course will provide students with the experiences and theory necessary for supervising counselors in training. This class is only available to those who have their LAC.

CED 6643 Sex Counseling This course will consist of an exploration of the psychological, physiological, social, familial, and existential components of human sexuality. Specific attention will be given the following subjects: Sexual attitudes, beliefs, behaviors, dysfunctions, deviations, and counseling; AIDS, incest, sexual abuse and other deviations; gender and sex; and human sexuality in different cultures. The course will be adapted to the needs of students or professionals in educational, counseling, mental health, social, and family agencies. An integration of individual, marital, family, and sex counseling approaches will be presented. Particular attention will be paid to the ethics of sex counseling.

CED 6673 Counseling Practicum Practicum is a supervised, on-campus laboratory experience in application of theories and techniques of counseling. Practicum is a beginning counseling

skills class. It is the beginning of the Clinical leg of your training. It is the prerequisite to Internship. Prerequisites: Introductory Course to Clinical Mental Health/School Counseling, CED 6093 Pre Practicum, CED 6733 Theories and CED 6743 Group Procedures.

CED 6683 Psychopharmacology The purpose of this course is to acquaint counseling students with the fundamentals of psychotropic drugs. Basics of pharmacology, adverse effects, indications, and drug interactions will be discussed. Boundaries of practice and practical issues of assessment and referral will be covered. The overall aim of the course is to provide information about psychopharmacology to the non-medical mental health care provider so that s/he can be a more informed member of the mental health care team. This course does not purport to prepare the student to be any part of the pharmacological prescriptive process.

CED 6733 Theories of Counseling Major contemporary and historical theories in counseling and an introduction to their application in the counseling and consultation roles. Prerequisite: CED 5703.

CED 6743 Group Procedures This is a skills and content course designed to help you gain the rudimentary knowledge and skills for conducting group counseling. The course will focus primarily on therapy groups in a brief format, but will also include information about psycho-educational groups and longer term therapy groups. In each of these settings we will examine multicultural issues as they pertain to the group process. Although the class will have a specific focus, you will be encouraged to develop your own learning goals and to choose assignments that will help you attain those goals. Prerequisite: CED 6733.

CED 6753 Career Counseling This is a dedicated to theoretical and applied topics in career development and career counseling. Students will acquire and understanding of career development and career counseling theories, vocational issues of multicultural groups, vocational assessment and intervention techniques and occupational information.

CED 6783 Case Management: K – 12 Laboratory and field experience with elementary or secondary school students including development and use of cumulative records, individual programs of treatment and follow-up. Implementation of treatment and consultation to facilitate growth will be emphasized. This includes methods of enhancing teamwork within the agency and / or staff and community agency personnel.

CED 6793 Case Management: Clinical Mental Health Counseling Laboratory and field experience with community agency clients including development and use of cumulative records, individual programs of treatment and follow-up. Implementation of treatment and consultation to facilitate growth will be emphasized. This includes methods of enhancing teamwork within the agency and / or staff and community agency personnel.

CED 6803 Internship Elementary (6 Hours) Supervised field practice in working as a counselor in a school setting with elementary students. Three hundred (300) clock hours are required, one hundred and twenty (120) of which are face to face and (180) indirect. Students are strongly encouraged to complete all other required coursework prior to enrolling in Internship. And must complete Prerequisites before admission to Internship.

CED 6813 Internship Secondary (3 Hours) Supervised field practice in working as a counselor in a school setting with secondary students. Three hundred (300) clock hours are required, one hundred and twenty (120) of which are face to face and (180) indirect. Students are strongly encouraged to complete all other required coursework prior to enrolling in Internship. And must complete Prerequisites before admission to Internship.

CED 6823 – (6 Hours) Counseling Internship: Community Counseling Supervised field practice in working as a counselor in a mental health agency setting. Six hundred (600) clock hours are required, two hundred forty (240) of which are face to face and three hundred and 60 (360) indirect. Students are strongly encouraged to complete all other required coursework prior to enrolling in Internship. And must complete Prerequisites before admission to Internship.

CED 6913 Advanced Counseling Techniques Integration of theory and methodology in experiential learning with various systemic and individual approaches. Prerequisite: CED 6733.

CED 6923 Ethics Students will receive an introduction to the ethical codes of mental health counseling, school counseling, and an overview of the philosophy of ethics. This course focuses on ethical conceptualization, analysis, decision making and practical application of ethics and law to common dilemmas faced by counselors.

CED 6953 Social and Cultural Foundations of Counseling Studies that provide an understanding of the cultural context of relationships, issues, and trends in a multicultural and diverse society related to such factors as culture, ethnicity, nationality, age, gender, sexual orientation, mental and physical characteristics, education, family values, religious and spiritual values, socioeconomic status and unique characteristics of individuals, couples, families, ethnic groups, and communities.

CED 6963 Assessment in Counseling A survey of the types and objectives of the various standardized tests used in the public school setting: achievement, mental abilities, aptitude, interest and self-appraisal instruments. Included in the course will be basic statistics necessary for the elementary understanding and interpretation of test data. Methods of study will include use of class lecture, research, films, and experience with test-taking and interpretation.

CED 6973 Personality Dynamics This course is designed to acquaint students with personality psychology—the scientific study of an individual’s characteristic patterns of thought, emotion, and behavior, together with the psychological mechanisms—hidden or not—behind those patterns. The topics to be discussed include the history of personality psychology, trait models of personality, personality judgment, and the biological and evolutionary roots of personality, psychoanalytic approaches to personality, personality development, and cognitive approaches to personality. In addition to these topics, a number of applied topics will also be examined including, happiness and well-being, personality disorders, and personnel selection. Emphasis is on the critical study of current theories of personality and their application to counseling.

CED 6983 Seminar in Counseling Critical analysis of issues confronting the professional counselor working with students/clients individually and in groups. Discussion of relevant research in counseling and of practical implementation of the various counseling theories.

HEALTH, PHYSICAL EDUCATION, RECREATION, and ATHLETIC TRAINING

HPR 5733 Special Problems in Physical Education and Recreation An in-depth study of a specific problem in physical education. Permission of instructor is required.

HPR 5773 Financing Sports and Leisure Activities The purpose of this course is designed to help students understand the role of administration and finance in the sports enterprise. To demonstrate the standard accounting procedures and principles as they apply to sport management. Emphasis is placed on the fundamentals of financial accounting and the basic tools a sport manager must possess in order to manage a sport business entity. Additional topics will include grant writing, sponsorship, and working with other agencies to develop outside sources of funds.

HPR 6243 Ethical Decision Making in Sport and Activity This course will examine ethical decision-making in a variety of environments with an emphasis on sport and activity. Real and hypothetical situations will be utilized, and the course will combine theory with practical application. The case method in sport ethics will be incorporated.

HPR 6360 Portfolio and Field Experience Seminar Students will complete a portfolio containing sport administration related activities, certifications, and positions held during the graduate education period. This is a comprehensive review of the coursework taken in the sports administration program and is preparation for the job search, for review by potential employers, for continuing professional development, and for certification of competences. This is required to be completed by all sport administration graduate students prior to graduation. The student must be signed up for this course at the beginning of their last semester.

HPR 6373 Sport Event Planning and Fundraising This course examines the fundamental tools and strategies necessary to raise funds within various segments of the sport industry. Both annual and major contributions will be emphasized as well as studying their role within the overall scope of a college athletic department, professional sport organization, or other industry segment.

HPR 6396 Field Experience Internship Sports Management This course will serve as the cap stone for the graduate student in Sports Administration, as they will be required to complete a full-time experience in the sports industry or leisure industry acquiring a total of 400 hours. This experience is actual work in a sport management setting, in which management practices are applied. Final agreements and arrangements with various agencies will be completed by a member of the faculty before a student can begin the field experience. The field experience will be directed and evaluated by a faculty member with appropriate supervision by an on-site professional.

HPR 6433 Marketing and Public Relations in Sports and Activities This course focuses on current factors and issues related to sport marketing and public relations. Emphasis will be placed on creating and evaluating a marketing plan and evaluating the relationships between sport organizations and a wide variety of consumers.

HPR 6513 Organizational Behavior and Leadership in Sport This course will examine and review the principles of organizational structure and behavior within sport organizations and a wide variety of consumers. Topics will include: leadership, decision making skills, organizational policies, organizational culture, organizational change, organizational effectiveness, communication networks, leadership values and diversity.

HPR 6543 Facility Planning and Management This course studies current master planning and management techniques used by Athletic, Recreation and Physical Education programs. The course will take the student from a focus group to a final design presentation project review of facility designs, programming, and equipment. The steps to accomplish this task could include a review of showcase facilities, master planning, mission statement, finance, construction and maintenance.

HPR 6683 Legal Aspects of Sports and Leisure Activity Management This course provides students with a background and understanding of the courts and legal system in America; furthermore, it shows how the law is used by, and applied to, athletes and athletics in America. Some of the major legal problems and issues confronting the sports administrator will be presented (e.g. contracts, due process, risk management, torts and antitrust, actions against professional, college, and community programs, actions involving safety procedures and arbitration).

HPR 6703 Sport Compliance Within this course, students will study rules and regulations that surround intercollegiate athletics at the NCAA I, II, and III level, NAIA and NJCAA. Students will examine key components of compliance including recruiting, eligibility, amateurism, and financial aid. Students will look at the best practice strategies used by institutions across the country to maintain institutional control in an environment of ever changing policy. Students will also examine the differences and similarities of the five different groups (NCAA I, II, III, NAIA and NJCAA). Students will look at the groups which govern NCAA legislation and examine upcoming legislation proposals.

HPR 6713 Social Dimensions of Sport and Physical Activity This course is a study of the historical development of sport, physical activity and leisure as an institution in American society (e.g. the rise of organized sport, factors affecting sporting developments, sport as an influence in society and sport in education). Students will review selected material from the literature in sociology, social physiology, sport and minorities, gender, competition, cooperation, audience, leadership, group interaction, and aging. These materials will be considered along with the analysis of the cultural significance of sports in a contemporary society.

HPR 6793 Research in Sport & Physical Activity This course examines strategies, techniques, materials, and principles for effective research within the sport industry. The traditional research model will be a focus with special attention given to survey research and economic impact research.

SPECIAL EDUCATION

SPE 5103 Advanced Methods of Instructing Students with Mild/Moderate Disabilities This course provides a series of experiences in which the candidate designs, implements, and evaluates appropriate individualized instructional programs for individuals with mild to moderate disabilities.

SPE 5213 Introduction to Autism Spectrum Disorder The course is an examination of the psychological, physiological, social, and educational characteristics of individuals who have been identified as having Autism Spectrum Disorder (ASD). By the end of this course, candidates will demonstrate knowledge and skills related to planning intervention options for individuals who are considered in need of special education services.

SPE 5393 Advanced Methods of Instructing Students with Severe/Profound Disabilities

This course is designed to provide an intensive study in the curriculum methods, techniques, and materials that have been developed specifically for those students with severe to profound disabilities.

SPE 5403 Assessment and Programming This course is designed to provide teachers and other related service providers an understanding of the processes and terminology used in the assessment of students with exceptionalities. The content will focus on evaluating students, analyzing and interpreting the data obtained from various assessment instruments, and using data to design and plan programs to meet the needs of the individual with exceptionalities. Emphasis will be placed on the importance of gathering accurate information, tailoring assessments to a specific purpose, assuring reliability and validity of assessments, obtaining age and linguistically appropriate measures, and sharing and collaborating with all stakeholders to improve the quality of special education programs.

SPE 5483 Characteristics of Children with Exceptional Needs A graduate level course designed to introduce teachers to a study of those individuals who deviate from the normal pattern of development. The course includes a review of the causes of individual differences and a survey of materials and methods used in the field of special education. The course is specifically designed for teachers in alternative licensure programs who may not have taken similar courses at the undergraduate level.

SPE 5993 Workshop/Seminar: Special Education/Early Intervention A study and application of consultation processes needed by Special Education personnel in assessing and utilizing team service to identify, evaluate, and implement program services for pre-school children.

SPE 6153 Issues in Special Education A seminar designed to expose the candidate to the major issues in the field which confront special education professionals. It is intended that the candidate develop defensible positions on these issues. Prerequisites: eighteen (18) hours graduate study or consent of the instructor.

SPE 6233 Special Problems Individually designed study of various problems in special education. Under the guidance of an advisor, the candidate will engage in directed readings, research and observations. A report of the candidate's finding is required.

SPE 6273 Research Problems During this course the candidate will design and implement an action research project related to issues, problems, and trends in special education. A presentation of the results of the project to the special education faculty is an essential component of the candidate's exit from the program.

SPE 6296 Teaching Internship in P-4 Observation and teaching of students with disabilities in an elementary setting under the direct supervision of a qualified teacher, with guidance from a special education faculty member.

SPE 6306 Teaching Internship in 4-12 Observation and teaching of students with mild disabilities in a secondary setting under the direct supervision of a qualified teacher, with guidance from a special education faculty member.

SPE 6313 Special Education Law This course is designed to provide teachers, administrators and related personnel with an overview of the legal rights of students who are in need of special education services and their families. In-depth review of federal and state special education statutes, regulations, procedures and case law will be provided. The central focus of the class is on IDEA Reauthorization of 2004 with additional federal laws to be discussed which include: the Rehabilitation Act of 1973; Section 504 and the American with Disabilities Act. Candidates will be introduced to the legal process through lecture, presentations, projects, and discussions.

SPE 6323 Behavior Management This course is designed to provide the candidate with methods and materials to develop positive behavior supports and self-management outcomes for students with exceptionalities. The course will build on current theory and research with an emphasis on assessment and monitoring techniques as well as behavioral, instructional, and family involvement strategies.

SPE 6353 Advanced Studies in Early Childhood Special Education This course examines various program models and curricula designed for infants, toddlers, and those students receiving early childhood special education services (ages 0-8). Special attention is given to the role of the parent, skills required in working with parents and professionals, components of individual education plans (IEP's) and individual service plans (IFSP's), and specific medical conditions that children with exceptionalities may encounter.

SPE 6413 Practicum in Teaching Students with Disabilities (B-5) This course provides an intensive practicum experience in which the graduate candidate is responsible for all aspects of instruction in the learning environments for the full range of ages, types and levels of abilities, and collaborative opportunities for young learners from birth to age 5.

SPE 6423 Practicum in Teaching Students with Disabilities (K-6) This course provides an intensive practicum experience in which the graduate candidate is responsible for all aspects of teaching a classroom for the full range of ages, types and levels of abilities, and collaborative opportunities for learners from grades kindergarten through six.

SPE 6433 Practicum in Teaching Students with Disabilities (7-12) This course provides an intensive practicum experience in which the graduate candidate is responsible for all aspects of

teaching a classroom for the full range of ages, types and levels of abilities, and collaborative opportunities for learners from grades seven through 12.

SPE 6453 Seminar: Assessment and Evaluation for Educational Examiners This course is designed to specifically meet the needs of those desiring licensure as an educational examiner.

SPE 6466 Practicum for Educational Examiners An intensive practicum involving the legal and ethical issues that impact assessment, eligibility and placement of students with exceptionalities, measurement theory, practices and devices required for appropriate services. Candidates will demonstrate the ability to select and administer appropriate tests and interpret test results providing the basis for proper diagnosis of a disability and the identification of children eligible for special education services. In addition, candidates will demonstrate the ability to conference and share assessment information in an understandable manner to parents, teachers, and other parties.

SPE 6493 Advanced Strategies in Early Intervention This course focuses on the knowledge, skills, and dispositions needed to deliver specialized services to very young children with exceptionalities and their families. A major focus of the course is the effective use of appropriate screening and evaluation tools to select and deliver research-based interventions that match the strengths and needs of children while respecting the capacities, cultural values, and beliefs of their families.

Board of Trustees
