Mobile Videography

There is a lack of instruction when it comes to using a cell phone as a primary video camera.

The goal is for you to leave with the skills to shoot any type of video (narrative, documentary, news, commercial) in a professional manner with no loss in quality compared with using dedicated video equipment and how to incorporate this knowledge into your classroom.

You'll Learn

- Key Terms
- Hands On With Hardware & Software
- Cultivating Ideas
- Storyboarding & Scripting
- Filming Techniques
- Lighting
- Audio
- Mobile Editing
- Distribution
