

Accounting Minor

The Accounting minor provides students with a comprehensive background in different accounting topics including financial and managerial accounting, taxation, financial statement analysis and more. Students learn to appreciate the importance of accounting as it pertains to other career tracks such as consulting, finance, investments, project management, operations, entrepreneurship and general management.

The student must complete the courses listed below with a grade of “C” or better.

ACC 2013	Principles of Accounting – A	3
ACC 2023	Principles of Accounting – B	3

Nine hours of Accounting (ACC) electives

Total Minor Requirements (15)
