

Project-Based Learning Certificate

Teachers College, Henderson

Required Number of Hours: 14

Description of certificate: (Include an introductory paragraph and certificate plan of study.) The Project-Based Learning Certificate encourages an in-depth investigation of the concept of project-based learning (PBL). Project-based learning is a hands-on approach to teaching and learning that engages students in real-world problems as an educational practice. A framework for this pedagogical approach is presented and implemented as a form of modeling. The coursework provides students with methods for engaging students in effective collaboration, student-driven inquiry, and assessment

Student Learning Outcomes: Students will:

- Articulate the importance of hands-on learning
- Demonstrate an understanding of project-based learning as a process and product.
- Engage in collaborative processes that involve an empathetic response to all stakeholders
- Be able to effectively use technology in the implementation of a project-based approach to teaching and learning.
- Develop a philosophy of project-based learning that is founded on real-world practice
- Engage in a community-based project that enhances business, the university, or the community at large.
